Public aid's county office to move here

The Madison County headquarters of the Illinois Department of Public Aid will be transferred to Granite City from Edwardsville, the Press-Record learned today.

Of the 150 currently employed at the office in Edwardsville, 85

will be assigned to Granite City and 65 to Alton, Ted Funkhouser, county IDPA director, said. Some vacancies are anticipated, requiring hiring of staff members.

The move is being made to bring the offices closer to

the principal population centers of Madison County.

Interstate 270 will be the dividing line determining areas served by Granite City and Alton offices.

Those based here will include caseworkers, supervisors and clerks.

Location will be the westernmost (back) third of the former W. T. Grant store in the Nameki Village Shopping Center.

Remodeling of the building has started and is scheduled for completion about Oct. 15, after which work will proceed on interior appointments for the IDPA office and for stores and other facilities scheduled for the structure.

Most moves into the 70,000-square-foot building are expected to take place in late December or early January.

Of the front two-thirds of the former Grant building, Carp's Department Stores will occupy a large central portion and Butler's Floor Covering the southern section.

(Continued on Page 4)

Campaign breakfast

All is in readiness for Wednesday's 7:45 breakfast at the Granite City Army Installation to kick off the fall 1977 Tri-Cities Area United Way campaign for \$608,250.

Proceeds will aid member agencies in meeting their 1978 operating costs.

Ray Sonnenberg, Belleville, a banker and professional football official, will be the keynote speaker.

Agencies to be represented at the gathering are:

Family and children — Catholic Charities, Coordinated Youth Services, Family Counseling Center, Illinois Children's Home and Aid, Protestant Welfare, Salvation

On and off the record

MOBILE SUNFLOWERS? If you are looking for a new variety of sunflower you might try the Venice Street Department garage, Klein and Brown Streets. The sunflowers you'll find aren't really a new variety, but they are growing in the back of a dump truck which is being stored at the garage. A load of dirt and broken concrete was left in the truck and these flowers have flourished since, some growing to heights of five feet and more.

Ballew promoted

The Pontoon Beach Village Board Thursday night promoted Patrolman Chet Ballew to the rank of sergeant, increasing the number of sergeants from two to three.

The department now has a chief, three sergeants and four patrolmen. Ballew's promotion was approved unanimously by the board on the recommendation of the police committee.

The board also gave authorization to the Quad-City Navy Mothers Unit 850 to sell tags in the village Thursday and Friday.

District buys building

Purchase of a new garage and office building in Washington Park at a cost of \$150,000 was completed by the Metro-East Sanitary District in a meeting at East St. Louis Thursday.

The district's purchase of the building at 6200 Forest Blvd. will result in a loss of almost \$4,000 in back taxes to St. Clair County. In addition, the building will be removed from future tax

rolls under a law which exempts government agencies from taxation of agency-owned property.

St. Clair County had sought to collect delinquent taxes on the building as a result of improvements made to the structure which was never reassessed. Two larger additions to the building were completed in 1975.

Injured in \$420 robbery

William Dale Phelps, 47, of 4141 Pontoon Road, was treated at St. Elizabeth Hospital Friday morning for pains to the chest, neck and left wrist and transferred to the Oliver C. Anderson Memorial Hospital for observation.

Phelps was lying face down on the floor of the office at Phelps Enterprise Trucking Terminal, 1023 Broadway, Venice, at 9:55 a.m. when an employee entered, saw him and called police.

Police found a money clip underneath his left shoulder and a Shriners' diamond ring on the floor.

Phelps told police at the hospital he entered the office about 8:20 a.m. Friday, went to fix coffee and a man about six feet tall, in his 30's and weighing over 200 pounds came out of the room and struck him. A total of \$420 in cash was reported taken.

Police found a metal pipe with a white sock wrapped around one end lying alongside the victim.

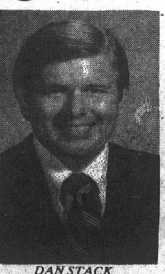

Stack to run for Congress

Dan Slack, a Granite City attorney, said today he will seek the Republican nomination for the United States House of Representatives and will wage an active campaign.

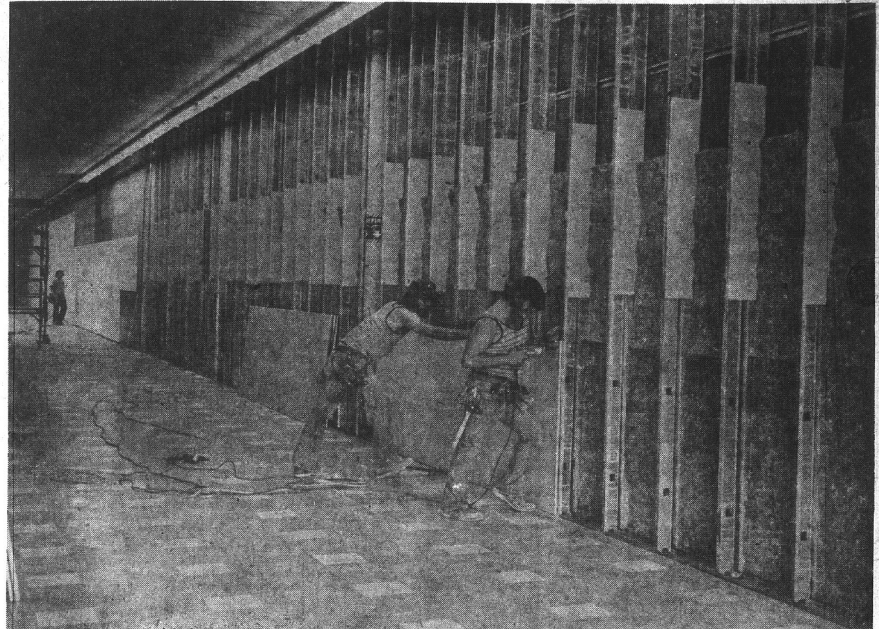

He will seek the GOP nomination for the seat from the 22nd District of Illinois now held by Democratic Congressman Melvin Price of East St. Louis. Slack, 26, has been employed in the United States Attorney's Office, Eastern District of Illinois, at East St. Louis, until resigning to announce his candidacy.

Receiving his doctor of laws degree from the Law School of St. Louis University, he had earned a bachelor of arts degree from Benedictine

End of steel 'blood bath' is urged

The steel industry has called for an early end to the "301 case" filed in 1976 against a bilateral Japan-European Community agreement which diverted an increased flow of steel into U.S. markets.

In a statement at the hearing chaired by Rep. Charles A. Vanik (D-Ohio), Armo Steel Corporation Chairman William Verity asked the subcommittee to propose appointment of a task force to recommend to the President "those actions which should be taken to preserve the economic health of the domestic steel industry."

The task force could be composed of members of Congress, the inter-agency economic group and academicians as well as representatives of steel labor and management, the industry spokesman said.

Also recommended was a reconvening of the subcommittee hearing in early January 1978 "to review what actions the Administration has taken, and what additional action may be needed or contemplated."

Verity sharply criticized

current government attitude regarding steel import competition, and added, "Obviously we have not communicated very well."

He noted that actions such as announcements of layoffs and shutdowns, as well as "the sad news of bankruptcy of an old and honored competitor" seemed to be creating better understanding of steel's problems.

"There may well be more such announcements in the foreseeable future," he commented, "since we may be past the point of salvation for some steel producers."

Verity disputed allegations that the domestic industry's import problems were attributable to poor management or lack of investment in modern technology, adding, "Our facilities are the most modern in the world except for the recent Japanese idewater plants, which incidentally were financed by their government's guarantees."

He said that "in every single instance" where foreign steel producers have stepped up imports into the

United States, there is a close relationship between that company and its government.

"In some cases, the two are inseparable thanks to nationalization," Verity added.

By contrast, the Armo chairman charged, the U.S. government itself is responsible for some of the cost burdens of the domestic

industry.

"It is ironic, if not downright tragic, that actions which are considered vices for American firms become virtues when practiced by our foreign counterparts," he commented.

As an example, Verity pointed out that were domestic producers to use "predatory" pricing, they would be subject

(Continued on Page 4)

Anti-obscenity law will be considered

An updated obscenity law that would include control over the display of adult magazines will be considered by the Granite City Council as soon as the ordinance can be prepared.

The ordinance was requested last week by Seventh Ward Alderman Ronald Coleman who told the council of an incident in which a confectionery operator refused to put such magazines "under the counter" in his store directly across from a school.

Coleman said the confectionery is patronized by

young children during the school day.

"One of the school officials went to the operator and asked if he would place the magazines under the counter," Coleman said. "He was not asked to discontinue selling the books. However, he refused and the books are on display for all the youngsters to see."

The council instructed George Filcoff, city attorney, to prepare an ordinance for the council's consideration.

Prices regulate volume of steel exports

(Tenth of a series)

The rapid growth of Japanese steel production is partly attributable to exports.

For the 20-year period of 1957-76, total Japanese production grew at an average rate of 6.7 million tons a year. Of this, 4.1 million tons represented growth in domestic consumption.

The other 2.6 million tons—or almost 40 per cent of the total growth—were contributed by exports.

It is clear that the Japanese export strategy has been an important source of production

growth, and thus of Japan's ability to continue to bring on new, efficient capacity.

In fact, during the most recent 10 years (1967-1976), the growth of Japanese consumption appears to have slowed down considerably, while the growth rate for exports has accelerated.

Japanese exports contributed 40 per cent to total growth during the 1957-1976 period, and 66 per cent of the growth during the last decade. While the 1967-76 trend is not necessarily representative of Japan's long-

run situation, it nevertheless points out quite convincingly that Japanese steel producers have become increasingly reliant on exports to sustain their high growth rate in total production.

In fact, whereas exports once may have played a supporting role in the growth of Japan's industry, they now may be becoming a more dominant factor.

To the nations to whom Japanese producers will direct this rising wave of exports, the increasing export of the Japanese production capability has important implications.

Because of the highly leveraged position of Japanese steel companies and the commitment to maintain stable employment, it is crucial to

(Continued on Page 3)

Meter job issue

Granite City officials apparently plan no immediate action on a request by the city's police union, Local 1347, that a position of parking meter motorman in the downtown area be restored.

The request was contained in a letter directed to Mayor Paul Schuler, who referred the message to the City Council. The letter, written by Craig A. Norn, secretary of the union, said that the motorman's post was abandoned by police authorities following the promotion of Patrolman Joseph Kastelle to the rank of sergeant.

Council members, however, maintained that the operation of the department is the responsibility of Police Chief Ronald

Veizer and that the aldermen have "no right" to interfere in the department's organization or operation.

Alderman Sam Whitmer said, "This is strictly a department matter. The council should have nothing to say about how Chief Veizer runs the department. We (the council members) have enough to do without trying to

accepts new post

Bishop Leroy Hodapp has announced that the Reverend Roy L. Baugh, pastor of Niedringhaus United Methodist Church, has been appointed to a congregation in the Missouri-East Conference, St. Louis, with his new duties beginning Oct. 1.

Rev. Baugh has led the congregation of Niedringhaus Church for the past seven and a half years in an extensive building program which has included raising the 72-year-old sanctuary and replacing it with a new sanctuary, parlor, chapel, youth center and office complex costing approximately \$850,000.

He also was instrumental in the congregation significantly reducing the building in-

Radiation monitored by state

By MARY RICHARDS
Illinois Department
of Public Health

Radioactivity. To many, just the word conjures up visions of mushroom clouds, disfiguring burns and genetic defects in future generations.

How can you escape exposure to radiation? The fact is — you can't. We are all exposed to it every day.

The sun, of course, is a source of radiation. But so is nearly everything you come in contact with, including this sheet of paper. The earth itself emits radiation — and so do people.

You receive some radiation from the house you live in. And if it's made of brick, the radiation level is slightly higher than that emitted from a frame dwelling.

Also, women are more radioactive than men.

So, we all live with small amounts of radiation from a variety of sources. Obviously, some of these sources cannot be controlled — but some of them can, such as radiation from x-ray equipment, from nuclear power plants and other man-made sources of radiation.

Since no one has been able to define just how much radiation is "too much," it is important that radiation emissions from those sources which can be

MUSCULAR DYSTROPHY AWARD for "outstanding participation" in this year's Jerry Lewis Muscular Dystrophy Telethon is presented to Bob Bell, left, and Ed McGovern, center, representing Granite City firemen and EMT ambulance personnel, by Michael Bernardi, program coordinator for the St. Louis district of the Muscular Dystrophy Association. The

controlled, be kept at the lowest possible levels.

In order to do this, the Illinois Department of Public Health has two special divisions whose primary function is to keep you and me from receiving excessive doses of radiation.

For example, health physicists from the Division of Radiological Health regularly check dentists' x-ray equipment, as well as x-ray equipment in hospitals and other medical facilities.

They do this to make certain that, when you have a tooth x-rayed, you are not receiving more radiation than is absolutely necessary.

Radiation experts from the Division of Nuclear Safety monitor the amounts of radioactive materials that get into the air, water and ground near nuclear power plants.

Although it has never happened in Illinois, if any of these nuclear plants should begin to emit large amounts of radiation, it would be closed down until the problem is corrected.

The state health department's health physicists also regulate shipments of radioactive materials on Illinois highways.

department, Firefighters Local 253, of which McGovern is president, collected \$3,000 during its annual Fill the Boot campaign. The St. Louis district includes the eastern third of Missouri and Madison, St. Clair and Monroe Counties in Illinois. Bernardi made the presentation to the firefighters last week at the main fire station on Madison Avenue.

They test microwave ovens and color television sets for radioactive emissions. In general, they do everything possible to protect the citizen of Illinois from exposure to unnecessary radiation.

Those who want more information about the state health department's radiation programs may write to either the Division of Radiological Health or Division of Nuclear Safety, Illinois Department of Public Health, 535 W. Jefferson, Springfield 62761.

WOMAN CYCLIST HURT
Mrs. Cheri Pinkerton, 42, of 11 Parktowne Drive, was injured when a motorcycle she was riding struck a hole and the impact threw her over the handlebars and into a field about 4 p.m. Tuesday. She was taken to St. Elizabeth Hospital where she was admitted with a possible head injury, a bruise to her left leg, scratches to her left arm and multiple contusions and abrasions.

No appointment is necessary to appear at the bloodmobile. St. Elizabeth Hospital in Granite City and other hospitals throughout the Illinois-Missouri Region receive their total supply of blood through these visits.

Bloodmobile here today and Tuesday

The Red Cross Bloodmobile will be at St. John's United Church of Christ, 2901 N. Main St., to accept blood donations at 2 p.m. today and again at 2 p.m. Tuesday.

The Church Women United is sponsoring the bloodmobile visit as a community service, with 23 churches participating.

Governing of schools to be chapter topic

The Gateway East Chapter of Phi Delta Kappa will hold its first meeting of the 1977-78 school year Saturday at 9 a.m. at the Round Table Restaurant, Route 157, Collinsville. It will be a breakfast meeting.

Chairman is James Correll, teacher, Jennings Junior High School, Hazelwood, and the topic will be "Perspectives on School Governance."

Speakers will be Elmer Belsha, superintendent of schools, Jennings, Mo., Charles Williams, Board of Education, Jennings, and James Newsome, Jennings.

Officers for 1977-78 are: President—Duane Weber, director, Special Education Region II, Madison County.

President-elect—William O. Thomas, assistant superintendent of schools, East St. Louis.

Secretary—Louis Barron, principal, Lincoln School, Wood River Elementary District 15.

Treasurer—Jerry Turner, principal, Belleville High School West.

Historian—Tony Yakos, department head, industrial education, Triad Community Unit 2.

Past members to join Saluki band

For the fifth consecutive year, the Marching Saluki Band of Southern Illinois University at Carbondale is inviting past members to join its ranks at SIUC's homecoming football game, according to Mike Hanes, band director.

The Saluki Alumni Band numbered nearly 40 members last year's soggy halftime show, and Hanes said he would like to see even more alumni participate this year when the Saluki host Lamar (Tex.) University Saturday. Game time is 2 p.m.

Former members of any of the university's bands who would like to come back and play one more time are invited," Hanes said. The alumni will join the 110 members of this year's band to perform the school fight song, "Go Southern, Go, and the Alma Mater.

Alumni interested in performing with the group may contact the band office in Alton Hall or simply show up for the pre-game practice session at 12:30 p.m. Saturday in the parking area directly northwest of the Arena.

Hanes said current band members will be happy to lend instruments to alumni who no longer have their own.

SERVICE COUPLE NAMES 1ST CHILD DIA MARIE

Marine Corporal and Mrs. James E. Caschetta became the parents of their first child, a daughter, born Sept. 21 at the military hospital at Cherry Point Marine Corps Base, N.C., where the family resides.

Mrs. Caschetta is the former Joy Pope, daughter of Mr. and Mrs. Robert M. Pope of Granite City.

The new arrival weighed seven pounds, 14 ounces. She has been named Dia Marie.

Mr. and Mrs. Ralph Caschetta of Granite City are the paternal grandparents.

Mrs. Lydia Jones and Mrs. Everett Bull, both of Granite City, are the maternal and paternal great-grandmothers, respectively.

FIRST BANK BUSINESS SAVINGS ACCOUNTS

For deposits up to
\$150,000

Are your temporarily idle dollars working for you—or are they just lying there gathering dust instead of interest?

Many Quad-City businesses maintain both checking and savings accounts at First Bank.

They transfer money in excess of immediate business needs from checking to savings. Business savings dollars earn the highest guaranteed interest rate allowed by Federal law—from date of deposit to date of withdrawal.

Then, when necessary, they transfer funds from savings back to checking without loss of earnings so long as a minimum savings balance of \$10 is maintained.

If you wish, transfers of \$1,000 or more may be made by telephone.

Of course, your business deposits are insured completely separate and apart from your personal accounts by the Federal Deposit Insurance Corporation.

First Bank Business Savings—the smart way for smaller businesses to put idle dollars to work until needed.

Prices

(Continued from Page 1)

maintain high operating rates. Said another way, it is necessary to "fine-tune" supply and demand, keeping them as closely in balance as possible. In Japan, the balance on the supply side is accomplished through "administrative guidance" — a process of negotiation between government planners and major steel companies.

One analyst has characterized this process as "perhaps the most durable and visible dimension of government planners reach a consensus about how much capacity will be added, who will add it, and when it will be added."

The government does not dictate how expansion will occur, but government officials — backed up by potential government sanctions — play an important part in the planning process.

The fact that individual private companies are permitted to coordinate their capacity plans — a practice which would be illegal in the U.S. — further underscores the fundamental difference between the U.S. and Japanese political and economic systems.

From the perspective of trade policy, this practice is also inconsistent with the premise of competitive economic theory that supply is controlled by independent producers responding individually to market forces.

The demand side of the Japanese supply-demand balancing act is managed by extremely aggressive counter-cyclical export programs.

Each downturn in domestic demand is accompanied by a sharp surge in steel export activity.

Conversely, when domestic demand improves, the volume of exports changes in the opposite direction.

One of the more elusive issues which emerges from Japanese export data is the question of exactly how the Japanese are able to sharply increase their exports during each domestic downturn.

While the evidence is fragmented, it seems clear that the Japanese have used export prices as a principal means for regulating export volume.

When additional exports are needed; export prices are cut; when steel is in short supply, export prices are raised.

It is also clear that the Japanese are quite willing, when export volume is needed, to price exports below average production costs.

These conclusions emerge graphically from data on the relationship between the price of steel exported from Japan to the U.S., and average Japanese production costs during the 1974-1976 period.

This period is an appropriate one to consider because it represents both extremes of the cycle, involves a substantial increase in exports to the U.S., and is covered by more reliable data than has been available for earlier years. With respect to the price data in particular, the U.S. Census Department began in 1974 to collect for the first time data on actual transaction prices of steel imports from Japan and delivered in the U.S.

Previously, only the "Country Import Value" was recorded which typically was 5-10 percent higher than the actual transaction price.

In addition, Japanese cost data have recently become public which provide a more accurate and reliable understanding of Japanese costs than has been available in the past.

Of particular interest are cost series for the top three producers published by the Industrial Bank of Japan, and a recent analysis of Japanese costs released by Schneider.

Both of these sources confirm an independent analysis based on Japanese steel company annual reports.

Each source of cost data produces a similar result — between \$209 and \$221 per net ton.

Using published increases in labor costs and material inputs, Schneider extrapolates the 1974 cost to 1975 and the first half of 1976.

The resulting average costs per ton are \$246 and \$254. The \$217 per ton estimate for 1974 is supported by three separate Japanese sources, and it is known that significant inflation occurred between 1974 and 1975.

At the same time, operating rates declined, thereby increasing the average fixed-cost burden per ton. Schneider's analysis, which implies a total increase of 11.8 percent between 1974 and 1976, seems extremely plausible.

Prices have been calculated in a way which enables direct comparison with the cost estimates.

Specifically, the price of each major product category, as reported by the U.S. Census Department, has been weighted by the proportion of that product category included in

DR. YOGENDRA SHAH

Doctor begins practice here

A new obstetrician-gynecologist has begun practice in Granite City.

Dr. Yogendra Shah prior to coming here was serving a fellowship at St. Luke's Hospital West in St. Louis.

His residency was taken at Homer Phillips Hospital, and his internship was served at Mt. Sinai Hospital in Chicago.

Graduating from the M.S. University of Baroda Medical School, Dr. Shah specialized in obstetrics and gynecology. He is a junior member of the American Association of Obstetrics and Gynecology.

Dr. Shah is the associate of Tri-City Obstetrics and Gynecology, practicing with Dr. Hector Zevallin. His office is located at 2050 Iowa St.

total Japanese shipments, both domestic and export.

In effect, this methodology yields the average revenue per ton that Japanese producers would receive if they sold their total production at the price of export shipments to the U.S.

Other analysts, based on average prices weighted by actual export tonnage, can be misleading because the Japanese typically export a more expensive product mix to the U.S. than their total production (upon which costs are based).

The Japanese were obtaining substantial price premiums — representing \$100 or more above average production costs — during the late 1974 and early 1975 period.

In early 1975, prices began to decline rapidly as demand fell off, and as the effect of commitments made at the peak of the shortage began to run out.

In the meantime, costs continued to increase and domestic demand in Japan became increasingly weak.

By August-September 1975, export prices to the U.S. were equal to average production costs, and in the ensuing months they dropped well below average production costs as the Japanese struggled desperately to boost exports and maintain their operating rate.

During the first six calendar months of 1976, Japanese exports to the U.S. sold at barely \$210 per ton — or \$35-45 less than average production costs.

In fact, if one wants to argue with the 1976 cost estimate, it is worth noting that 1976 shipments to the U.S. were actually going out at prices below 1974 production costs — a value which has been verified by three independent sources, and to which significant increases must have been added in the following two years.

PREPARING FOR FALL FESTIVAL. The St. John United Church of Christ fall festival planning committee is shown as it completed plans for the Oct. 23 chicken dinner and bazaar. Seated left to right, are Mesdames Georgia Engelke, Alice Pfroender, Marie Widdows and Willowden Walker, Russ Walker, Steve Sues, Lewis Labory, Leg

Married women, single men workers increasing rapidly

Single men and married women posted steep labor force gains during the year ending March 1977, a new U.S. Department of Labor-Bureau of Labor Statistics report showed today. Virtually all of the increases were in employment.

Nearly three-quarters of a million more single (never-married) men were in the March 1977 labor force than a year earlier. Though smaller, the rise among single women was a substantial 360,000.

These labor force increases reflect the long-term growth in the number of single persons 20 to 30 years old, due primarily to the aging of the enormous number of children born in the late 1940s and the 1950s.

Labor force participation rates are comparatively high for single men and women in the 20-to-30 age group.

In addition, many of these persons are marrying somewhat later than has been the case in recent decades, thus contributing to the rise in the number of independent, one-person households.

The rise in the number of working wives with husbands present (about 825,000) was one of the largest over-the-year increases on record, as the labor force participation rate edged up, reaching 44.9 percent.

The participation rates for wives with children under age 18 rose sharply over the year — from 53.7 to 55.6 percent for wives with school age children and from 37.4 per cent to 39.3 per cent for wives with children under age six.

Other highlights of the marital and family characteristics of workers in March 1977 are:

— Nearly two-thirds of the 15.5 million mothers in the labor force were employed full time.

Of the mothers in the labor force, over one-fifth were divorced, separated, widowed or never-married (single).

More than three-fourths of all divorced mothers and over half of the separated mothers were in the labor force. The participation rate for single mothers (42.7 per cent) was high considering that three-fourths of them had children under six.

The number of children under age 18 in families with mothers working or looking for work continued to rise, reaching a record 28.9 million in March 1977. More than a fifth (13.6 million) of all children were in families in which the father was either absent, unemployed or not in the labor force.

Mrs. Altha Roland dies

Mrs. Altha Roland, 86, of 1914 Sken St., Madison, died at 3:30 p.m. Thursday in the Castle Haven Nursing Home, Belleville.

She had been ill two months. Born in Lake Charles, La., she lived in Venice 40 years. She lived in this area 53 years.

She was a member of City Temple Church, the Rebekah Lodge and Gold Star Mothers of Venice.

Her husband, Marshal Roland, died in 1974.

Mrs. Roland is survived by two daughters, Mrs. Richard (Pauline) Bechtel of St. Louis and Mrs. Charles (Bonnie) Hunter of Granite City, 10 grandchildren, 47 great-grandchildren and 18 great-great-grandchildren.

Funeral arrangements are listed in today's obituary column.

E. P. Everts dies at 72

Everett Paul Everts, 72, of 2227 E. 23rd St., was pronounced dead at his home at 1:36 p.m. Thursday by Bob Thomas, deputy coroner.

Mrs. Beulah Everts called the police after her efforts to wake her husband failed.

Mr. Everts had been under a doctor's care.

He was born in Tama, Iowa, and had lived in this area 38 years.

He retired 10 years ago at Granite City Steel where he worked in the By-Products department and the blast furnace plant.

In addition to his wife, he is survived by two sons, Robert Everts of Caseyville and William Everts of Granite City; one half-brother, Louis Brauckmuller of Hookdale, Ill., and one half-sister, Mrs. Talke Becker of Granite City, and 12 grandchildren.

Funeral arrangements are in today's obituary column.

‘AGING MYTHS’ TALK Associate Extension Adviser Jan Perkins will present a discussion on “The Myths of Aging” for the Trio Unit, Madison County Homemakers, on Tuesday, Oct. 4, at the Hope Lutheran Church, Granite City.

Funeral arrangements are listed in today's obituary column.

This remarkable new energy-saver from Bryant can cut up to 16% off your heating bills.

It's Bryant's new Vent Mizer Flue Damper, available exclusively on the energy-saving Bryant Deluxe Gas Furnace. When the furnace shuts off, Vent Mizer closes and automatically locks in heat which would otherwise escape up the flue. Then it automatically opens when the furnace goes on again.

Paired with the gas-saving electronic ignition which is standard on every Bryant Deluxe Gas Furnace, the Vent Mizer can actually save you up to 20% on your annual heating costs. At today's fuel prices, that's a lot of dollars!

Call us today for all the money-saving facts on the Bryant Deluxe Gas Furnace. It's the furnace designed especially for the times we're living in.

County Democrats' '77 dance Oct. 16

Madison County's Democratic Central Committee has set its annual John F. Kennedy memorial champagne gathering for Sunday, Oct. 16, at 7 p.m.

Location will be the Madison County Firemen's Hall, 9510 Collinsville Road.

Dancing will begin at 7 p.m.

and hors d'oeuvres will be served. Tickets cost \$25 per person.

Nelson Hagnauer is the county Democratic chairman.

Reservations are being made with: JFK Champagne Dance, c/o Sam W. Wolf, Secretary, 1505 Johnson Road, Granite City, Ill. 62040.

Scott fights 'nuclear dump' role for Illinois

Illinois Attorney General William J. Scott continued last week to try to prevent Illinois from becoming the "nuclear dumping ground for the nation."

Scott announced the filing of two actions involving a high-level nuclear waste disposal site near Morris, Ill.

He asked the Nuclear Regulatory Commission to suspend all current shipments of additional nuclear waste to the facility pending a thorough safety and environmental review, and also intervened in an on-going proposal to expand the storage of the facility.

"To have a high-level nuclear waste disposal site located in such close proximity to heavily populated areas—and on one of the most important waterways in Illinois—without ever having had a thorough and independent environmental review is just incredible," Scott said.

General Electric owns the Morris facility, which was originally designed in the 1960s as a nuclear fuel reprocessing plant. Technical failures with the design of the plant led GE to convert the plant to a long-term storage facility, he said.

"Nuclear waste now is coming from as far away as the Connecticut Yankee Plant, Point Beach, Wis., and San Onofre, Calif.," Attorney General Scott added.

"What was originally intended to be a reprocessing site has become a permanent disposal site."

"Illinois already has the

largest commercial nuclear storage facility in the nation and one of the largest in the world. If we do not act now, no other sites may be developed and we may find that Illinois has become the nation's only dumping ground for nuclear waste."

Scott also charged that the state may find itself saddled with responsibility and costs for perpetual care of the site in the future.

"The costs of guarding this facility are going to be astronomical. Some of the waste there will remain dangerous for tens of thousands of years, and they will have to be isolated from people and the environment for that whole time."

In 1967, the Illinois Department of Public Health signed a contract with General Electric under which Illinois would ultimately assume ownership and responsibility for the Morris reprocessing plant.

Scott said the contract was void because General Electric "never honored its side of the bargain."

The problem of who will care for this site in the future remains, though.

"Someone will have to accept responsibility, and if we do not address the problem now, we may find the state stuck with liability by default. It would be unfair to require the taxpayers of Illinois to pick up the tab for what has become a national dumping ground, and I am not about to let that happen."

PARKING AREA for the new Granite City Town Hall at 21st Street and Delmar Avenue will be built on the site of these three apartment units on the west side of Delmar just north of 21st, diagonally across from the town building. The apartments and land were acquired by the township at a cost of \$62,000. The buildings will be razed for the parking area construction. The township plans to acquire additional land for parking in the area, according to Township Supervisor Nelson Hagnauer.

RETURNS HOME

Mrs. Malcolm A. Thompson, 4170 Breckenridge Lane, has returned to Granite City after spending two weeks with her daughter and family, Mr. and Mrs. Al Barcus and her grandchildren, Kelly, Michael and Robert, in Bedford, Tex.

Creative approach urged in use of money, land and labor

Industrial, business, government and education leaders will have to blend some deeply held principles about American free enterprise — with some imaginative new notions about how to utilize available resources — if they expect to share in a dramatic upgrading of prosperity within the area, Kenneth A. Shaw, said Thursday evening.

President of Southern Illinois University at Edwardsville, he addressed a group of industrialists attending a conference on economic development at the university. He also participated in a six-member panel on the future directions that community leaders must take to retain and attract industry to Southwestern Illinois.

In analyzing three basic elements of the economic base of any area — land, capital and labor — Dr. Shaw said land is thought of as a resource essentially limited by its nature. There are many ways to define the limits of what the land of the region can produce, he commented.

"Even though we must recognize that our region depends on the strength of the state of Illinois in which we live,

and to the neighboring state of Missouri in many crucial ways, these are limits that are most easily subject to understandable analysis.

"Potential land development is intimately related to capital and its availability. "There are good reasons for taking imaginative and creative approaches to capital investment here in this region. Even when we do think big, however, there are times when the most dynamic imagination must come to grips with reality," he said. There are limits to what can be done with available capital, he added.

Dr. Shaw told the industrialists that "we are under unending imperatives to get our priorities in order and to make the most prudent and productive uses of the capital that is placed under our stewardship."

"While circumstances will not permit us to be spend-thrift with the fiscal resources that become available to us, we can afford to be generous and expensive about a third economic resource — labor," Shaw said.

The university president pointed out, in speaking of labor, that he was not only referring to the existing pool of skilled and unskilled workers, but all of the people in the region banded together in a common effort toward growth.

"It is the people who will furnish the imaginative vitality that can produce a more positive commitment of capital and a more prosperous, attractive and humane use of land in this region."

"By determined use of an immediately available resource, concentrated human energy, a fresh climate of enterprise can be created."

"The proper direction of such

forceful ideas also demands intelligent understanding and wise foresight.

"It is in this sector that the university has a crucial role. In doing the things we do best — teaching and research — we constantly improve our developmental thinking about land and capital while honing and sharpening the insights of our future pool of labor," he said.

Pres. Shaw said that, on an individual level, members of the SIUE faculty move into the community, acting as consultants, teaching special classes, designing and directing special programs, and simply being good citizens.

The range of services offered by the university has grown from a continuing and dynamic concern for meeting the special needs and problems of the area, he continued.

An area where SIUE can do more, Dr. Shaw said, is in the development of in-service training programs.

"If it's inconvenient for you to come to us, we'll make every effort to come to you," Shaw told the industrialists.

"No longer can Southern Illinois University at Edwardsville be thought of as a kind of benign concentration camp where young people can pass from adolescence to maturity to move into the labor force with proper credentials. The university should be a home for the future."

"The woman who aspires to higher things besides the kitchen sink or office typewriter can grow professionally and personally by coming to us."

"Someone mired in middle-management in the mid-life crisis we hear so much about can explore new alternatives or upgrade his abilities by taking advantage of programs already in place."

"Adult education is one of the major initiatives this institution of higher learning is actively pursuing for the future. Adult education is the course of the future for higher education and it is going to involve ramifications hitherto undreamed of."

"In the future, the university will provide the broadest range of educational, cultural and social programs possible for the mature citizens of the area it serves."

"The university is also strongly reaffirming its commitment to community service."

"This aspect of our mission has been one of the most dramatic parts of the development of the history of the university. We have grown quickly."

"In the near future, we foresee the necessity to develop a better organizational pattern so as to facilitate the delivery of our community service programs to the entire region," Dr. Shaw concluded.

EQUAL RIGHTS DEBATE. The Granite City Democratic Club hosted a debate between the president of the Metro-East Chapter, National Organization for Women, Norma Mendoza, and Stop ERA National Vice President Elaine Midendorff. About 150 persons attended the event, held in the Knights of Columbus Hall on Edison Avenue. Mrs. Mendoza receives a round of

applause after her 20-minute presentation favoring the Equal Rights Amendment. She cited data and quoted national leaders' viewpoints. The next NOW meeting will be held on Thursday, Oct. 6, at the First Federal Savings and Loan on St. Louis Street in Edwardsville beginning at 7 p.m. The local chapter of NOW has headquarters at 2145 Pontoon Road, Granite City, 931-5400.

Retirees form Children's library programs

Venice chapter
Alice VanLandingham, national president of the American Association of Retired Persons, has announced formation of Venice, Ill., Chapter 2565.

Mrs. VanLandingham offered congratulations on behalf of the ten-million-member organization to the new chapter and its president, Marion Guest, 1017 Douglas St., Venice.

AARP chapters sponsor community public service programs; work to influence enactment of local, state and federal legislation of benefit to the nation; and acquaint members and other citizens with programs and services offered by the national organization.

Founded in 1958, AARP is the nation's largest organization dedicated to "helping older citizens achieve retirement lives of purpose, dignity and independence."

It encourages older Americans to remain active in community and public affairs, provides legislative representation at all levels of government, and sponsors services to help them stretch retirement incomes.

REINHARDT—Reafor Sells—BETTER LIVING!

By JEANETTE KAMPEN of the Public Library Staff

The Children's Department of the Granite City Public Library begins its "Windows of the World" series of live performances and demonstrations of interest to children on Wednesday, Sept. 28, at 7 p.m. The featured performer is Ken Summers of Fabjance Studio in Bethalto. Mr. Summers designs and markets tricks for magicians as well as performing magic himself. His half-hour performance in the Children's Room is free and open to the public.

+++
In memory of Mrs. Hugo Schroeder, some of the women's clubs in Granite City have established a memorial fund, which will be used to purchase an appropriate memorial gift for the public library. Mrs. Schroeder served on the Board of Trustees of the Granite City Public Library from 1928 to 1937 and was a member of the library staff from 1937 to 1967. She lived in Granite City nearly 75 years and was active in many of the women's groups in Granite City.

+++
Other organizations and individuals interested in adding to the memorial may contact Lucille Georgeff at the public

library sometime in the near future.

+++
A reminder to library patrons living in the northeast part of Granite City: For your convenience there is a book return (in the shape of an American eagle) located at Graham's Business Products, 3220 Nameoki Rd., Bellemeade Village Shopping Center.

+++
Library materials from the adult department may be renewed by telephone on Fridays from 1 to 5 p.m. Just dial 876-0850 and ask for renewal service.

+++
New Items: GCPL has pur-

chased a historical series of books on the United States titled "The States and the Nation," published for the United States Bicentennial by W. W. Norton & Company and the American Association for State and Local History.

The series offers a volume on every state, plus the District of Columbia. So far, GCPL has received 27 books in the series; the publisher will send the remaining volumes as they are published. Besides the text, each book contains a "photographer's essay," in which a photographer presents his own personal perception of the state's contemporary flavor.

+++
personal control program for home or work. Held in conjunction with the Lewis-Clark Lung Association, American Cancer Society and Illinois Heart Association, the program has been considered successful for more than 12 years in many cities.

+++
The plan consists of regular evening group therapy sessions from 7 to 8:45, films, and a daily

Shaw to talk on the '77-78 academic year

Questions about the year ahead at Southern Illinois University at Edwardsville will be answered by President Kenneth A. Shaw in an address to the university community Thursday at 4 p.m. in the Communications Building theater.

Climaxing the first week of the fall quarter, Dr. Shaw will outline his personal goals and those of his four vice-presidents and various constituency groups for the academic year. A reception will be held afterward to give faculty, staff and students an opportunity to meet new and other members of the president's staff.

The president said he expects the address to the entire university community to become an annual fall tradition.

He said there are two purposes: "To provide an update on developments that affect SIUE, outlining both on-campus and off-campus activities and concerns of many members of the president's staff."

—To suggest directions for the future.

The president said several major announcements will be made concerning housing, transportation, new programs and services, organizational changes, enrollment, budget and funding, and implementation of the university's "problem identification process," as well as goals for the future.

The address will be televised live to several on-campus locations by the closed circuit transmitting facilities of the university broadcasting service and taped for delayed radio broadcasts at 7 p.m. by WSIE-FM, the campus radio station. The address also will be videotaped and made available to campus groups for later viewing.

Dr. Shaw, a native Granite Cityan, has been president of the university since Jan. 17. He announced in a March 3 address to the university community that he wants his administration to be "goal oriented and to strongly stress evaluation of its services and individual performance."

He said his annual goals will be sent to the SIUE Board of Trustees prior to Oct. 1 and will form a basis for the board's evaluation of his work each spring. The annual evaluation will be supplemented by a formal board review every five years.

How to get money out of your house without selling it.

You simply come to us for a real estate loan backed by your equity. Equity is the difference between how much your home is worth, and what you owe on it.

It's a valuable asset you can use to back a really big loan. For whatever you have in mind.

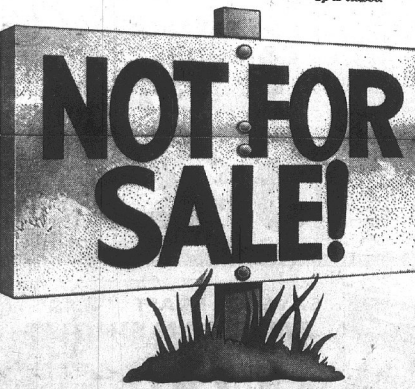

Real estate values are up, up, up.
So the house you bought just a few years ago probably would sell for a lot more than you paid.

Which means your equity is bigger. And the bigger your equity, the more you can borrow in a large real estate

loan. Right here. Right now.
So the equity in your house is like money in your pocket.
Call us. We've got your loan.

GRANITE CITY PRESS-RECORD Mon., Sept. 26, 1977 Page 7

Granite City member of Steel coalition

Granite City has taken membership in the newly formed Steel Communities Coalition, headquartered in Niles, Ohio, following a meeting earlier this month attended by Mayor Paul Schuler at Washington, D. C.

The meeting, attended by mayors and officials of eastern and midwestern steel communities, was called to discuss problems of the steel industry and their effects on areas whose economy depends upon those industries.

Schuler said four goals were pursued at the Washington session: 1. To identify problems common to eastern and midwestern steel cities; 2. To agree on the broad outlines of an approach to those problems; 3. To organize and pursue a common approach; and 4. To formulate a limited number of short-term goals.

In a report of the meeting distributed last week to members of the Granite City Council, Schuler said the participants reached a general consensus that "The decline of the American steel industry presents a common threat to the economic base of steel cities and counties in the northeast and midwest, and to the jobs of their people."

Contributing to this common threat, the report said, are factors that include "The inequitable impact upon cities of the problem of today's facilities with older steel facilities of

federal regulations relating to the steel industry; the loss of jobs of workers in cities with older steel facilities to workers in other nations as a result of increased imports; the concentration of older technologically inefficient steel mills in the northeast and midwest.

Other problems contributing to the common threat include the loss of jobs in the steel cities as a result of unrealistic pricing which undercuts the economic stability of the industry and forces the closing of so-called marginal steel facilities, the report said.

It added that "The increasing technological obsolescence of steel mills in the northeast and midwest as a result of the severely limited capital available to modernize and/or rebuild such facilities," also contributes to today's problems to a great extent.

Another serious threat results, the report added, from "The clear and present danger of the financial ruin of individuals and the bankruptcy of communities as a result of the bankruptcy and closing of additional steel companies."

In its organizational proceedings, the group provided that "from this day forth, the steel-related problems of any member of the coalition shall be considered to be the problem of all members of the coalition."

Scouts in Ward Two cleanup

With the help of Fred Schuman Jr., alderman of Ward Two, and Lionell Portell, superintendent of streets, Boy Scout Mike Yencho, working for his Eagle rank, organized a project to pick up trash around Ward Two in Granite City.

Scouts from troops in Granite City worked from 7:30 a.m. until 6 p.m. The Street Department provided equipment and Jim Hutchings, Tom Reynolds, Carroll Gates and Ronnie Burton helped with the project.

Residents of the ward were notified in advance and asked to put out trash not ordinarily picked up. Streets, medians and the perimeter of Wilson Park were cleaned.

A picnic lunch was provided at the park at noon. Refreshments were donated by National Food Store and Pepsi Cola Bottling Co.

Trash bags used for the project were donated by Burger Chef and the loud speaker was loaned by the Police Department.

Scouts assisting Yencho on the project were: Tom Busch, Jeff Glasco, Kenny Gorline, Lenny Graham, Jerry Heintz, Bill Kefalas, Jeff Mead, Tim Mithu, Caleb Miller, Kent Monical, Bob Moske, Bob Pater, Bob Portell, Danny and Denny Sipes, Lyle Tempel, Grant Thornburg, Nick Tsigalofor, Bill Winter and Steve Yencho.

Honored by university

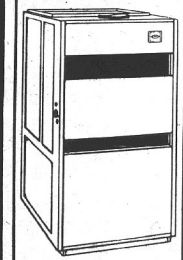

Thomas Black, a junior at the University of Dubuque (Iowa) majoring in special education and psychology, is one of 32 students who have been named to the liberal arts college's Dinner Club, indicative of academic excellence.

Black is the son of Mr. and Mrs. James Black, 2740 Sunset Drive, Granite City.

Only students who are juniors or seniors and have maintained a 3.5 or better cumulative grade average in their college career may participate in Dinner Club, which meets for dinner monthly and discusses current and pertinent issues.

"We are glad to be able to recognize scholarship at the college in this way," Academic Dean John Burhorn said. "Our meetings are both fun and educational. The university offers over 30 academic programs for undergraduates. There are nearly 1,000 students.

FIRST CLASS COOKING. G. Rollin Henn, Granite City, far right, still practices Boy Scout cooking as fellow "Scouts" await steaks furnished by Alex Tarpoff, not pictured. Henn passed his Boy Scout cooking requirements in 1922 in Madison. At the Thursday evening meeting of the executive board of the Cahokia Mound Council, held at the home of Leland Eckart in Collinsville, from the left are: Ralph Korte of Highland,

chairman of the Kickapoo Scout District; Henry D. Karandjeff, Granite City, chairman of the Sunken Lake Preservation Committee, and Elvin Foechner, member of the council advisory board. Korte, Karandjeff, Foechner, Henn, Tarpoff and Eckart are all members of the council executive board and are active Boy Scout leaders.

Stack

(Continued from Page 1)

College, Atchison, Kan., after transferring from Belleville Area College. He is a graduate of Assumption High School, East St. Louis.

Working his way through high school, college and law school in a large variety of jobs — including steel mill, trucking docks, department stores, restaurants and the United States Army Reserve — Stack has also served as deputy clerk if the Circuit Court of Madison County and special research clerk for the chief circuit judge of Madison County. He served his legal internship in the Granite City law firm of Loenders, Robertson and Konzen.

The son of Mr. and Mrs. James E. Stack Sr., both lifelong residents of Granite City with the exception of the last four years when they

Stack

moved to Highland, Dan Stack is the grandson of Joseph and Minnie Grob and the brother of Kathy Welch and James E. Stack Jr., all of Granite City. He is active in civic affairs, having served as treasurer of the Tri-City Knights of Columbus-Shriners annual dinner for children, and participated in the Pro-Life Committee, the Quad-Cities Ecumenical Youth Council and the Granite City Diamond Jubilee Celebration, among other programs.

A lifelong resident of Granite City, Stack hopes to represent St. Clair County and the major part of Madison County in the United States House of Representatives by winning the November 1978 general election.

In an article in the Sept. 15 Press-Record, Dr. Edward F. Ragsdale, Madison County Republican chairman, related his enthusiasm for an unan-

GC Park District plans fall cruise

A new experience for Granite City Park District residents is being planned for Sunday, Oct. 30, when a four hour cruise on board the 64-foot yacht, "Relaxin'." is scheduled.

The yacht is based at the Woodland Marina in St. Louis County and the four hour trip includes lunch on board and a leisurely cruise along the Mississippi and Illinois rivers to enjoy the scenic views in the bluff areas.

A bus will leave the Wilson Park Ice Rink at 11:30 a.m. Sunday, Oct. 30, and return about 6 p.m.

Cost of the cruise is \$15 and bus transportation costs \$4.75, for a total of \$19.75 each, Harold Brown, park superintendent, advised.

Deadline for making reservations is Oct. 12. At least 39 tickets must be sold to make the cruise, Brown said.

All fees must be paid at the time a reservation is made at the Wilson Park office.

The "Relaxin'" is documented by the United States Coast Guard and is fully equipped with all safety devices.

Brown said, "We are always looking for new ideas and destinations for one-day trips in the fall months and we feel this should be a very enjoyable and rewarding experience."

Rev. Baugh

debtedness in advance of the requirements.

In the seven and a half years of Rev. Baugh's pastorate at Niedringhaus Church, he has received into membership over 200 members.

During this period, he has been active in the community, participating in varied organizations.

He served as president of the Board of Trustees for the Granite City Public Library, receiving an award from the City Council for "outstanding leadership in rejuvenating the library."

The pastor served on several committees of the Tri-Cities Area Chamber of Commerce and has served on the Lay Advisory Board of St. Elizabeth Hospital for the past five years.

Rev. Baugh has been active in the Granite City Rotary Club, having been co-founder of the Rotary Prayer and Action Breakfast, which brings together business, labor and political leaders from the Quad-Cities for discussion of action projects related to community betterment.

WE'LL MAKE IT HAPPEN!

Alvin Brandes to retire; GC fireman for 29 years

Alvin Brandes, 53, a Granite City fireman for 29 years, will retire upon the end of his work shift Wednesday.

Notice of his retirement was accepted by the City Council last week.

Brandes has been a fireman since May 1, 1948, and was promoted to engineer Sept. 14, 1956. He achieved the rank of captain March 1, 1969, and the present chief, Don Parente, made him a shift commander in September 1975.

Brandes said he has been on every major fire in the city in recent years, except two. He said he particularly recalls a major fire a few years ago which destroyed two homes in the 2200 block of Benton Street and winds threatened to destroy half the block.

Several Lincoln Place fires which nearly spread through city blocks remain vivid in his mind, he said.

He and his wife, Marilyn, are the parents of Edward Brandes, who operates Ed's Standard Service Station, Routes 111 and Interstate 270.

In his letter of retirement to Fire Chief Parente, Brandes said:

"In reminiscing about the past 29 years I have been a Granite City fireman with mixed emotions and astronomical feelings that I submit my letter of retirement.

"Firefighting has been a whole life, but I think it is now time to hang up my helmet and boots and retire to spend the remaining years with my wife, Marilyn, and my family.

"The inspiration of my firefighting will never leave. Every time I hear a siren, it will remind me of the days of a

ALVIN BRANDES Retires after 29 years

young driver, my fellow firefighters referred to as "Big Train." I have worked with many, many good firemen.

"A message and advice that I would like to pass on to them is not a quote from me, but an old friend and fellow superior, which I'm sure wasn't meant to be sardonic: 'A fireman is not screwed up — wait long enough and he'll screw himself up.'"

Elijah King.

"This may be inappropriate in my letter of retirement, but it is meant as an inspiration to maybe just let some sit back and think.

"A firefighter is a good job — the best, but least rewarding. The public's opinion is that all we do is set and save 'logs', but my associates know better; so with this last message, part of me is left at the fire house, and the remainder will be with my family.

operating costs of three per cent over the next three years.

"This is realistic and achievable," Bakalis said. "It is achievable from a management and planning point-of-view and reflects in us as public officials." He noted that he has reduced his own budget by three per cent in the current fiscal year.

Bakalis warned the audience that those who seek to blame all property tax problems on local government waste and inefficiency should "look to their houses first, offer help rather than criticism, and lead by example rather than by rhetoric."

"Leadership should come from the top," Bakalis said, "and it's just not coming." He said property tax relief is a real and serious concern of the citizens, "not a racketball to be bounced back and forth while people struggle to meet their mortgage payments and pay for their children's education."

He called for property tax relief in Illinois "as soon as it is fiscally responsible to do so. This doesn't mean appointing yet another task force, but rather taking action which will permit the state to replace the revenue which is lost by property tax reductions."

HB 1789 creates the Illinois Designated Account Purchase Program (IDAPP) which, Thompson said, is intended to provide a "creative new partnership" between state government and commercial banks.

IDAPP will take over problem student loans, giving banks an incentive to increase the number of such loans in the future.

Gov. Thompson on Friday used his amendatory veto on a bill which would have decriminalized the sale or distribution of obscene materials to consenting adults.

The amendatory veto of HB 1915 adds language to the measure to preserve rights of local governments to regulate by zoning places where obscene materials are sold or distributed.

Gov. Thompson said his veto was designed to return the bill to the General Assembly "for a second look."

A bill to provide a potentially lifesaving tax break for the last small independent brewery in Illinois was approved by Thompson.

UNITED WAY GIFT. Shell Oil contribution to the fall campaign of the Tri-Cities Area United Way is made by Steve Saltich, left, maintenance supervisor of the company's Wood River works, to Manning Kilton, group leader in the Industrial Division of this year's drive.

A firefighter is a good job — the best, but least rewarding. The public's opinion is that all we do is set and save "logs", but my associates know better; so with this last message, part of me is left at the fire house, and the remainder will be with my family.

Marlene Rothbort, artist and philosopher, who claims the ability to see the "colorful energy which comes from one's body," will appear at Bellevue Area College, 2300 Carlyle Road, at 7:30 p.m. Wednesday.

What is an aura? Miss Rothbort says, "Everyone has an aura. It is the luminescence given off by a person, an inanimate object, a plant, even a city."

She claims to see the different colors which vary with a subject's mood, state of health and thoughts at the time. Through her interpretation of those colors, she suggests various kinds of therapy if she feels such therapy is needed.

She is not alone in her belief that the study of auras is a highly respectable field. Kirlian Photography and aura study have received widespread publicity through the efforts of Russian scientists in those areas.

She prefers to avoid predictions. If the aura gives off the colors of death, she says that nothing can be gained by warning the subject, since no help is possible. But if she sees possible sickness in the future, she will discuss it with the subject in the belief that she can help correct the problem.

Miss Rothbort claims to have taught others to see auras. But her primary aim is to increase her counseling for individuals, schools and businesses.

Although she would like to see her form of color therapy used in hospitals and mental institutions to create more effective doctor-patient relationships.

In recent years, she has given numerous demonstrations and lectures and has submitted to strenuous testing by a board of psychiatrists at the University of Pennsylvania.

Skeptics and believers alike will be able to judge for themselves whether or not she has the abilities attributed to her at the BAC theater at 7:30 p.m. Wednesday.

Kilton is the personnel manager of the Nestle Co., Inc., 2101 Adams St. The kickoff breakfast for the campaign will be Wednesday morning in the officers' club at the Granite City Army Installation.

Diocese backs UW

Bishop Joseph A. McNicholas has announced that the Catholic Diocese of Springfield is giving its wholehearted support to the various United Way campaigns now being conducted in various communities of Central and Southwestern Illinois.

"The United Way is an all-out effort to bring together the people of our communities in responding to some of the human needs which surround us," Bishop McNicholas said. In a letter to all Catholics in the communities where campaigns are being conducted, the bishop said, "I wholeheartedly support the United Way campaign and I hope you will join me in that support."

In some of the communities, Catholic organizations share in the funds collected by the United Way. "This is an added reason for our enthusiastic support of this campaign," Bishop McNicholas said.

secure detention.

Alternative education programs are meant to supplement the traditional classroom approach with individual teaching techniques. Such programs are to be designed to serve students who have been unable to adjust socially or academically to the traditional school and who may be headed toward deviant behavior or unlawful activities.

Eligible applicants for grant funds are counties, cities and villages or jointly with school districts and/or youth service agencies.

Enforcement Commission submission dates for group homes are Feb. 8, 1978 to Feb. 14, 1978, and for alternative education April 19, 1978 to April 24, 1978, all grant applications must be reviewed by the regional planning unit prior to submission.

The Southwestern Illinois Law Enforcement Commission (SILEC) requests that grant applications for group homes and alternative education programs be submitted to it by Dec. 1, 1977, and Feb. 1, 1978, respectively. "These dates are necessary in order to have adequate time to review them before the submission to the Illinois Law Enforcement Commission," a spokesman said.

Further information and technical assistance are available at the Southwestern Illinois Law Enforcement Commission, 103 E. "B" St., Belleville (phone: 277-1550).

bill requiring utility companies to give 24 to 48 hours' notice before shutting off service to customers was signed last week by the governor, HB 621, sponsored by Rep. Everett G. Steele, requires utilities to notify specified local government officials and, if requested, the owner or mortgagee of a property where utility service is being terminated.

Calling it "an important initial step toward the lowering of health care costs," Thompson last week signed HB 1650, the Generic Drug Bill.

It authorizes pharmacists to substitute, with the approval of the person for whom a prescription has been written, a generic name drug of a lower cost for a brand name drug.

Persons who apply for a license to be foster parents will now have to submit to a background investigation from the Illinois Department of Law Enforcement under legislation signed last week by Thompson.

"In the past, some children placed in foster homes have been physically abused," he said. "Later, it was discovered that some of these foster parents had criminal records."

North gets second win; topples Wood River, 23-6

By GEORGE BARTZ
For the Press-Record

The Granite City North Steelers posted their second win of the season Friday night — against the Wood River Oilers, 23-6 at Wood River.

Steelers Kevin Buckingham put North ahead with a 40-yard field goal at 6:59 of the first quarter.

North then kicked off and Wood River fumbled on the return. Steve Hartline covered up the loose ball for North.

Mike Sherman ran two yards for a touchdown. Buckingham's

point-after was good and the Steelers extended their lead to 10-0.

North's defense held the Oilers and forced them to punt on their next possession. Sherman then proceeded to scamper 53 yards for another Steelers touchdown with just 27 seconds remaining in the first quarter.

Buckingham's point-after attempt was blocked and the score after the first quarter was North 16, Wood River 0.

The second quarter proved to be an exchange of punts

until the Oilers committed a fumble deep in their own territory.

This set up a first-and-goal situation. However, the Steelers were unable to score.

North's defense then held the Oilers and forced them to punt on the next series. Wood River punted the ball out of bounds at the Steelers 45-yard line.

North moved for two first downs. Quarterback Doug Rains then threw a 31-yard touchdown pass to Mike Hagnauer.

Buckingham added the extra

Yardstick		N	W
First downs		10	15
Yards rushing		144	320
Yards passing		0	8
Passes (comp/att)		0/0	1/3
Total yards		144	328
Punts/Yds./Avg.		5/165/33	2/49/24.5
Penalty Yds.		6/60	1/25

point for a 23-0 lead for North as the first half ended.

In the third quarter, Wood River recovered a Steelers fumble which set up its first

scoring drive. On fourth-down-11, the Oilers chose to go for the first down and made it.

At 9:08, the Oilers pushed through and scored their only touchdown of the night. The two-point conversion attempt failed and the quarter ended with North 23, Wood River 6.

In the fourth quarter, the Oilers once again fumbled. Doug Rains, playing defensive back on the Steelers defense, recovered the ball for North and ran to the Wood River 16-yard line.

The Steelers two plays later fumbled the ball and Wood River recovered.

Steelers Bruce Wright intercepted an Oiler pass and ran the ball all the way to the Wood River 13-yard line, but a personal foul brought the ball back to the 28. Doug Rains ran for a first down, but the Steelers failed to score on the drive.

Wood River set up one final drive and moved the ball all the way to the 22-yard line of the Steelers. The Oilers once again fumbled and North recovered.

The Steelers ran out the clock the rest of the way to leave the final margin 23-6.

Mike Sherman had another outstanding game, running for 139 yards on 18 carries and scoring two touchdowns.

Losing coach Carl Crawford of Wood River said that his team beat itself.

"We got stomped with stupid ease," he said.

North head coach Tom Wyrostek said he was pleased with the way his defense came through.

"We capitalized on their

mistakes and I'm pleased with our defense. But our offense was a little weary."

The Steelers' next game is at home Friday, Sept. 30, against Roxana, beginning at 8 p.m.

How they scored
North 16 7 0 0-23
Wood River 0 6 0 0-6
N-Buckingham 45 field goal
N-Sherman 2 yard run (Buckingham kick)
N-Sherman 53 yards run (kick failed)
N-Hagnauer 31 pass run (Rains) (Buckingham kick)

Press-Record

Lancers' ground game spears South, 40-0

By ELDON WARFIELD
For the Press-Record

Momentum throughout the entire game flowed among the Belleville East Lancers as they overpowered the South Warriors, 40-0 Friday night in Granite City Stadium.

Lancer Chris Tourajigan swept across the field untouched like a tornado clearing a path.

The 174-pound senior halfback rushed for 168 yards in 20 attempts and scored three touchdowns. Tourajigan also returned a kickoff for a touchdown.

"Stop Tourajigan and you stop their offense," said South coach Stan Wojcik. But Tourajigan and the Lancer offense prevailed over South. An evening of gloom and disgust was experienced by the South Warriors. In their first possession of the night, they were forced to punt. They then held the Lancers and forced them to punt, but Rich Wager of Belleville booted a 43-yard kick which put Granite in a hole.

South again was forced to punt and Belleville East then went to work, running off-lack plays and slipping in an occasional quick pitch.

The ice was broken when

Tourajigan rambled six yards into the end zone. Kicker, Craig Seiffert, added the extra point to put the Lancers on top, 7-0.

SECOND QUARTER action was started by an apparent Warrior comeback when a penalty and an eight-yard run by Doyle Beard led to two first downs.

Beard nearly broke loose for a TD but he was halted by defensive back Mark Hill of the Lancers.

In an effort to save the Warrior drive, Mike DeGonia nearly pulled off a spectacular diving catch, but with an incomplete South was forced to give up possession of the ball. Tim Kirksey next booted the pigskin 38 yards into the end zone.

Play resumed with a Lancer drive starting at the 20-yard line and ending in the Warrior end zone.

South hopes of obtaining the football diminished with a bootleg by Lancer Quarterback Jeff Lander and a nine-yard run by Tourajigan for first downs.

Then a series of off-lack plays set up an eight-yard touchdown pass from Lander to tight end John Dwyer. This 15-play, 80-yard drive by the Lancers killed the remaining time in the first half and at halftime the Warriors trailed, 20-0.

Tourajigan kept finding daylight in the second half when he returned the second half kickoff 96 yards into paydirt.

The extra point kick was good by Seiffert and the Lancers increased their lead to 27-0.

Bouncing back, the Warriors mounted their strongest attack against Belleville.

Beard, the workhorse for South, with Cliff Moran out with an ankle injury, gained a first down on a 12-yard dash. Mike Forshee, Warrior QB, ran a quarterback draw for 14 yards and a first down.

Dave Klarich threw a key back to open the left side for an eight-yard gain and a first and goal from the four-yard line for South. But the Lancer defense tightened up and stopped South on three goaline stands.

On the fourth attempt from the one-yard line, Beard was dropped for a 15-yard loss.

The final chance for South came when East's Wager squibbed a punt and the Warriors ended up with good field position on the 46-yard line. The Lancers stopped South before the Warrior defense could gain a yard.

Gaining possession of the football, East proceeded in running the Warriors against the end zone. Tom Roff of Belleville added another TD for the Lancers, diving four yards for glory.

The final score for Belleville came on a one-yard plunge by Chris Castiller and Seiffert added the extra point with a perfect kick.

With the absence of Moran and Jay Huebner, Beard was the offensive punch for the Warriors, carrying the ball 24 times and gaining 70 yards.

Forshee gathered 39 yards in 11 attempts.

The bright spot for South was punter Tim Kirksey. "Tim has always been an exceptionally good punter," he commented. "Lancer about the senior left-terminator."

Kirksey punted five times for

an average of 33 yards per boot. The burden of punting is not the only duty Kirksey has; he is also the extra point kicker and a wide receiver.

South will venture farther into its extremely tough schedule when the Warriors go up against Cahokia, Edwardsville, Collinsville and Alton the next four weeks.

The old rivalry of Southwestern Conference teams and Granite City South will be alive for the next month.

After these games, the stage will be set for the North-South battle Oct. 28. Then the season winds up with Pattonville. Mo. Injuries have plagued the Warriors thus far this season. Moran and Huebner have been sidelined with leg injuries, although Moran, it is hoped, will be ready for next week's game at Cahokia.

Beat by a 'face mask and a bomb'

Trojans lose in final minutes, 13-8

By PETE HAYES

Press-Record Sports Editor

Madison's Trojans lost their first football game of the season Friday night DESPITE James Heard and Ronald Morris.

Rosary High School of St. Louis scored with less than two minutes remaining in the game to eke out a 13-8 victory over Madison, which was going for its third victory in three games.

Heard and Morris, however, did all they could to prevent the loss.

They combined for 246 yards rushing — 121 on 19 carries for Heard and 125 on 19 carries for Morris — to spur on the Trojans, who outgained Rosary's Rebels 314 total yards to 223.

The Trojan defense, however, was not to be outdone. It limited the Rebels' highly-touted running back, Brian Keegan, to 68 yards on the ground... but it wasn't enough.

Wide receiver Greg Carli hauled in a 45-yard touchdown pass with less than two minutes left in the game to make the difference in the game.

The Rebels were stopped on their attempt at the two-point conversion.

The Rebels were also the first team to score in the game. In the second quarter, Keegan slammed in from the one-yard line to give Rosary a 7-0 lead at that point.

THE TROJANS kept moving

was assessed. The opponents scored two plays later.

"They just couldn't handle Heard," said Jakich. "He had a field day. Morris was also unbelievable... the whole team is really."

Trojan quarterback Joe Fitchinski was four-of-eight in passing for the day for 54 yards, 38 of which were gained by Ernest Davenport.

When asked if he is even vaguely surprised by his team's success — even in losing Friday — Jakich said, "No. I'm not. I've known all along that these kids could do it. It was just a matter of things coming around their way."

"This game demonstrated a lot of class by both teams, I thought," he added. "The officiating was great, both teams played super... and our defense was unbelievable."

"Rosary has one fine football team."

Then the Trojan mentor gave his evaluation of what he thought was the turning point in

Yardstick

M		R
Yards rushing	250	166
Yards passing	54	57
Interceptions	5	5
Penalty yards	55	53

the ball with ease... between the 20 yard lines.

"I told our guys to hold their heads up," said Madison Coach Nick Jakich after the game. "They have absolutely nothing to be ashamed of... they just barely lost to a team that most people said would beat them by two or three touchdowns."

TIE CRITICAL play leading to the Rosary game-winning touchdown came on the visitors' final drive.

After apparently stopping the Rebels on a third-and-six play at their own 33-yard line, the Trojans were called for a face mask penalty. It was ruled to have been an intentional infraction and a 15-yard mark-off

Granite City Stadium. The Lancers handed the Warriors their second at-home shutout. Number 50 for Belleville East is Eric Krill.

(Photo: Belleville Press)

the game. "We got beat by a face mask and a bomb." It was as simple as that to Jakich.

NEXT WEEK, Madison plays its first game of the season against an Illinois opponent. The Trojans host Columbia next Saturday in a 1 p.m. contest.

Also, it will be the first game against an opponent from a school of approximately the same size as Madison.

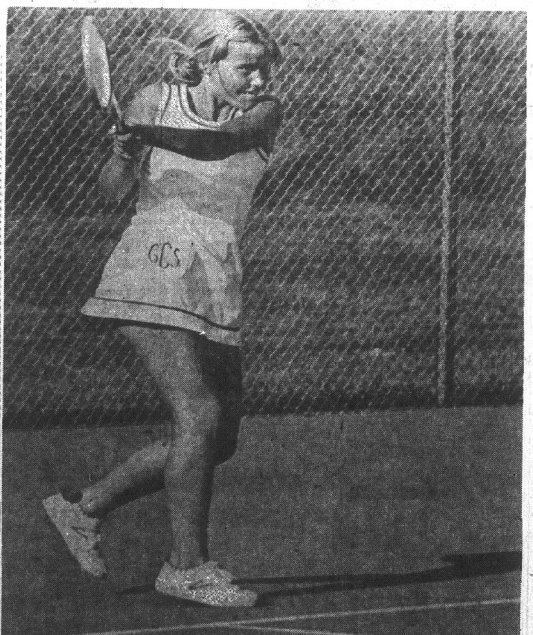

The first three opponents — St. Genevieve, Warrenton, and Rosary — are schools that at least double the enrollment of Madison, which is just around the 650 mark.

But size hasn't seemed to make any difference to the Trojans so far.

How they scored

Rosary.....	0 7 0 6-13
Madison.....	0 0 0-8
R-Keegan 1 run (kick good)	
M-Davenport 1 run (Fitchinski to Jackson for two-point conversion)	

R-Carli 45 pass (Two-point by failed)

CHRISTY BAUER of the South girls' tennis team returns a backhand Thursday in her match against Kathy Stringer of Collinsville High at Collinsville. Christy was defeated 2-6, 2-6 and the Warriors lost, four matches to three.

Both girls' tennis teams lose Thurs.

Both Granite City girls' tennis teams were defeated in action Thursday.

North was beaten at O'Fallon 7-0 in matches while the Warriors lost a heart-breaker to the Collinsville team at Collinsville 4-3, losing all of the singles matches while winning all three of the doubles matches.

IN THE NORTH contest, Margie Vershul lost to Shelly Flynn 0-4, 0-4. Cindy Campbell was beaten by Collinsville's Kristal Griffith 0-4, 1-6. Vickie Cottrell lost to Robin Munick 2-6, 0-4 and Connie Lee lost to Karne Nabb 2-4, 2-6.

In doubles matches, the team of Shelly Polman and Beth Goff lost to Shelly Dobbe and Sonja Mooman 1-6, 1-6. Liz Clay and Laura Sobolewski were beaten by Jeanie Howard and Toni Haberman 0-4, 0-6. In a last doubles match, Chris Clay and Lisa McKee lost to Gina Hunk and Mary Beth Keller 2-6, 4-6.

SOUTH'S WARRIORS lost the same luck in their

singles matches, but the scores were a little closer.

Christy Bauer of South lost her match to Kathy Stringer of Collinsville 2-6, 2-6. Laura Gabriel was beaten by Peggy Welle by the same scores of 2-6, 2-6. Linda Vaughn lost her first set to Patty Tiddy 1-6, before forcing her to a 5-7 decision in the second set. Theresa Hayes lost to Melinda Hopper by scores of 6-7 and 4-6.

IN THE DOUBLES, however, there was a complete about-face. The South team of Susan Bell and Mary Ellen Hutchings beat Collinsville's Mary Anne Fanning and Jeri Rinkler 7-5 and 7-6. Jane Malesian and Susan Squires defeated Carla Simpson and Mary Beth Stephens in a tough match 7-6, 5-6 and 6-1.

In the final doubles match, Sherrie Depey and Agatha Grabowski beat Stacey Simon and Linda Vuoksi 1-6, 7-5 and 6-2.

The next meet for South is today when it travels to Edwardsville at 2 p.m. North will be in action tomorrow at Belleville West, also at 4 p.m.

South citizens' board meets

The Granite City High School Soccer and Baseball Complex Citizens Committee met in the Granite City Board of Education conference room last week to discuss future improvements.

The committee, composed of members of the school board, school administration, home owners of Lueders Estates and the Granite City South Boosters Club, were unanimous in their support of the continuation and development of the sports complex on Fehling Road.

The group is making long-range plans for the baseball-soccer field at South which have not as yet been approved by the Board of Education. Among these are possible lighting for the field. Past improvements have included putting a fence around the area.

The major area of discussion of the group was to find alternative methods to provide necessary financing for the complex. The committee has requested interested citizens — who have ideas or recommendations on methods to improve funding for the sports complex — to contact members of the committee and express their thoughts.

Members of the committee are Don Stucke (876-2907), Norman Hill (831-0757), James Dumont (877-3512), Leo Manogian (877-3543), Warren Decatur (887-2104), Mrs. Ray Thomas (877-1250), Franz Feigl (451-1539), Kenneth Spencer (876-8714), Jack Scarborough (878-8344), Mrs. Paul Schuler (877-2074), Henry Mann (877-1327) and Joe Pedra (876-6600).

Hurler enrolls at SIUE

Tom Ritzheimer, a standout baseball player for Weslin Senior High School in Trenton the past four years, has signed a letter of intent and will enroll this fall at SIUE, Coach Roy E. Lee, reports.

Ritzheimer, president of his class his senior year, also starred on the Trenton American Legion team, both as an outfielder and pitcher. He pitched for Weslin High his senior year and posted a 7-2 record while hitting .425. His record in Legion ball this summer was 12 victories and two losses, and he hit .375 over 34 games.

"Tom is a big young man (6-3) and throws right-handed," said Lee, who added, "he's strong and has good control. He should help us." In high school baseball, Ritzheimer was chosen for the all-conference team as an outfielder and pitcher and was voted his school's most valuable baseball player. His prep coach was Manny Formoso.

GC Knights win tourney

Timely hitting along with a solid defense enabled the Granite City Knights of Columbus to walk off with the championship trophy of the Trenton-Knights of Columbus slow pitch softball tournament last week. The local council defeated Carlyle 2-1 in first-round

competition, Trenton 8-1 in the semifinal round and Carlyle 1-0 in the championship game. Other councils participating in the tournament were East St. Louis, Highland, Centralia and Mascoutah.

Big crowd, record sprint car field, Swindell wins big

One of the largest spectator gatherings ever at Tri-City Speedway assembled Saturday night to watch the 10-lap sprint car field in the track's history in action on the half-mile dirt oval.

Sixty-five sprint cars from throughout the Midwest were on hand for the activities, which included five heat races, two semi-feature races and the 30-lap main event.

Sammy Swindell of Memphis, Tenn., was a runaway winner in the feature, leading the event from start to finish.

The feature was highlighted by numerous wheel-to-wheel battles behind Swindell, but he was never seriously challenged for the number one spot.

Swindell also won the third heat race of the night. Other heat race winners were Tom Cobin of Carrollton, Mo., Bob Thurman of Burtonville, Ind., Ralph Blachley of Des Moines, Iowa, and Gary Scott of Jefferson City, Mo.

Winners of 10-lap semi-feature races were Larry Gates of Evansville, Ind., and Dan Smith of Brownsville, Ind.

Finishing behind Swindell in the feature, in order, were Corbin, Scott, Ron Millon of Jacksonville, Ill., Mike Johnson of Martinsburg, Ind., and Sonny Smeiser of Kansas City, Mo.

Driver Don Weinrich was shaken when his sprint car flipped over between the third and fourth turns in the first heat race. But he escaped injury and was able to return to competition later in the program.

Popular racer Chuck Anall of Tennessee was on hand, but mechanical problems plagued his car throughout the evening and he was never a serious contender.

The racing program also featured the sportman cars in a "Double-O" race where they alternated between the half-mile and quarter-mile tracks, crossing paths twice in each lap.

During the 10-lap event, Jerry Zehele of St. Louis put on one of the best driving exhibitions of the night, piloting his car from last place in the starting lineup to first at the checkered flag.

Paul Humphrey of Dupo finished second, followed by Dean Arne of Granite City, Bill Ried of St. Charles, Mo., Gary Wallace of Arnold, Mo., and Pat Walsh of Kirkwood, Mo.

Next Saturday, Oct. 1, at 8 p.m., the race track's season will end with the annual 75-lap WFL Classic race for late model stock cars.

The event is open to drivers from all tracks and racing organizations. The large purse prize is \$10,000.

Host Tiger golfers win

The friendly confines of the Oak Brook golf course proved ideal for the host Edwardsville High School team as it captured a golfing invitation meet Saturday with 580 points.

Lakin to hurl for Cougars next year

The signing of talented righthanded pitcher John Lakin of Granite City High School South to a letter of intent to enroll at Southern Illinois University at Edwardsville this fall was announced today.

Coach Roy E. Lee, who has directed SIUE baseball since its inception as a varsity sport in 1968, made the announcement.

The signing of the big (6-3) mound ace of not only South High but the American Legion team (Post 113) which finished second in the Illinois state tournament at this summer, helps fill the loss of Lee's "big four" 1977 mound staff at SIUE.

Lost to SIUE by graduation were lefty Steve Ashby of Granite City; Jerry Deml, elongated righthander from Waverly, Minn.; southpaw Stan Ostorbur of Granite City and St. Joseph; and Sam Pastrovich, righthander from Mt. Olive.

These four recorded 21 of SIUE's 25 victories this past season. Lakin, who posted an 8-2 record and a 3.40 record in team roped to a 34-10 record under the coaching of Conrad

"Babe" Champion, is also a better-than-average hitter. Playing a strong first base on both his high school and Legion teams, Lakin blasted out a .425 average in prep competition and was a more than respectable .368 against Legion pitching.

His earned run average in Legion play was 2.12, and in high school it was 3.59.

Champion had an explanation for Lakin's relatively high ERA in prep play: "John started pitching late in high school... he's an excellent fielding and hitting first baseman... so he had to learn the mound job quickly. But, he's come a long way."

"He keeps the ball down low, and he makes the batter hit most balls to the infield."

"Take his walk-strikeout ratio. In high school, he posted seven walks to 25 strikeouts; in Legion, it was a very good 21 to 56. He should be another good pitcher for SIUE in the same class with Ashby, Bruce Thompson and Don Rains," Champion predicted.

DIRECTING TRAFFIC during Friday's South game with Belleville East is Warrior Doyle Beard. Maybe some

of the night's directions weren't too clear... South lost to the Lancers 40-0.

South-North soccer duel; defeat Chicagoans

Both Granite City soccer teams were in action against Chicago-based opposition this weekend... and they did quite well, thank you.

And even more interest in developing in the annual North-South soccer game at 4 p.m. this Thursday, Sept. 29, at GCHS North. North's Steelers lost, tied and won twice after a 29-game, two-season winning streak.

In the weekend play, North defeated Roosevelt 4-1 and Shurz 4-0.

For Granite City South, defending state champion, the going was easy against the windy city teams. On Friday, the Warriors beat Chicago Shurz 5-0 and on Saturday they topped Roosevelt 7-0.

Greg Feigl was the first to get on the scoreboard for South. He did it at the 16:35 mark of the first period. Taking a pass from David Goldschmidt, he slammed home the goal, number 17 for him on the season.

Mark Goldschmidt was the next South kicker to put his team on the board. At the 10:38 mark of the second period (they played four 20-minute quarters), he took a penalty kick that was successful.

Feigl was next up. Assisted by Gary Phelps, he put in his team-leading eighth goal of the year at the 3:16 mark.

Then newly-returned Warrior David Goldschmidt got his first goal of the season on an assist by Feigl at the 3:50 mark of the third quarter.

He had been sidelined for the early part of the season with a torn knee ligament.

Dave's brother, Mark, got his second goal of the game on his second penalty kick of the game to round out the scoring for South at the 13:06 mark of the third period.

The final period was scoreless, South emptying its

bench. "I thought Shurz would be a little tougher than they were," South coach Gene Baker said. "I saw them in last year's state tournament and they weren't bad."

WHERE THAT CAME IN was the next day (Saturday) and the South opposition for the day, Roosevelt High.

The Rough Riders of Roosevelt were never really in the game, losing their composite and the game from the opening kick.

David Goldschmidt got his second goal of the season with only 1:38 elapsed in the first quarter unassisted.

Freshman sensation David Fernandez was next up for the Warriors.

He slammed in a goal at the 12:03 mark to make the score 2-0 on assists from Feigl and Mark Goldschmidt.

Other South goals by Feigl (12:22), Mark Goldschmidt (13:56) and Jeff Tinsley (15:49).

The real story of the game, however, could be told in one single play which occurred in the second quarter.

At the 19:33 mark, a penalty kick was called for against Roosevelt. It was with David Goldschmidt would take the kick for South.

But the Rough Riders were a bit upset with the call and simply yelled out, "Let them have the point," and stood by with their arms folded as Goldschmidt kicked the ball into the net. From that point on, the game seemed to get more and more out of hand.

"I pulled out most of our starters in the third quarter and told the rest of the guys out here to stay away from Roosevelt as much as they could," said Baker, "I didn't want any of our guys to risk getting hurt."

North Coach Bob Kehoe was impressed by the talent of some of the Chicago players but concluding that coordination and teamwork were problems for the visiting teams.

Eric Painter broke the scoring ice Friday with 11 minutes left in the first half, getting a goal after a pass from Eric Thornburg.

Roosevelt tied it on a foul kick with 15:19 left in the third quarter, but Steffler Jeff DeMott put his team ahead again on a penalty kick with 8:16 remaining in the same period.

With seven minutes left in the third session, DeMott scored again, this time on a pass from

WINNING SOCCER is played by Granite Cityans in weekend competition here against Chicago high schools. A South High School player (left) is shown attempting to

nudge the ball past a Chicago Roosevelt athlete (No. 5). The Warriors defeated this foe 7-0 and topped Shurz 5-0 while North High defeated Roosevelt 4-1 and Shurz 4-0.

Painter. Bob Batey kicked in a penalty shot with only 40 seconds remaining in the game.

North led in shots-on-goal, 11-5 and corner kicks, 7-1 and Goalie Mike Hill had to make only two saves to Roosevelt's one. There were 14 fouls against the Steelers and 21 against the visitors.

Hill again made two saves to the enemy one and North High chalked up a 12-3 edge in fouls on goal in shutting out Shurz in a game played at Collinsville Saturday night. The Chicagoans led in corner kicks 3-2 and committed 10 fouls to North's 12.

Held scoreless at halftime, the Steelers got on the scoreboard with 12:28 left in the third quarter as Painter tallied, assisted by John Kefalas.

Cliff "Butch" Stefanoff scored an unassisted goal with 11:52 left in the fourth quarter.

And at 4:04 Dave Dean put the ball in the net aided by a dazzling passing display by Stefanoff and Batey.

Thirty-nine seconds remained when Stefanoff headed in the ball from a corner kick by Mike Robertson.

The 2-2 tie suffered by South Thursday was not an embarrassment because the foe here was St. Thomas Aquinas. Goal-getters were Mark Goldschmidt on a penalty kick with 13:47 left in the game and Greg Feigl assisted by Gary Phelps when only a minute and 13 seconds were left.

Aquinas had taken the lead on an unassisted goal when only 2:13 remained in the second quarter and chalked up another unassisted tally 76 seconds later.

The St. Louisans led 15-6 in shots on goal but South had a 2-2 advantage in corner kicks. Barry Briggs saved 12 enemy

shots and the Aquinas goalie stopped three.

The game was a bit marred by tension, collisions and disagreement over the refereeing. Aquinas, which defeated the 1976 Warriors, was blamed by many of the fans Thursday for its attitude and conduct.

There will be no rest for the Granite City soccer players. GCHS South is at McCleary North in St. Louis at 3:30 today, and at 4 p.m. today GCHS North

will see action at Christian Brothers College High School. Then all eyes will focus on the annual Steeler-Warrior contest at 4 p.m. Thursday at North High.

Electron microscopy certification process

A certification for an electron microscopy specialty has been approved by the Electron Microscopy Society of America, according to Prof. Gertraude Wittig of the department of biological sciences at Southern Illinois University at Edwardsville.

Prof. Wittig is a member of the EMS Education Committee, which presented the specialist proposal during the Society's 1977 meeting in Boston. She said graduates of the biology program at SIUE have the skills to pass a specialist certification exam.

The Society approved plans to finalize the certification requirements so that the first examinations for specialist can be held next summer. A certification board is in the process of being set up, but the education committee will continue to monitor, review and update the certification process.

Prof. Wittig explained that certification is needed because electron microscopy requires technically trained and experienced personnel for which no civil service system job guidelines exist (except in Illinois). She said that appreciation for the specialist's technical skill will be shown through higher pay.

"As a rule, applicants for the examination would be expected to have two years of college or the equivalent, including courses in mathematics, physics, chemistry and biology," Prof. Wittig said. "They would also have one year of coursework in electron microscopy lab to be admitted to the exams."

"In addition, they must have two letters of reference from accredited persons in electron

microscopy, a person who is a member of the Society or is recommended for his or her work in electron microscopy," she said. "The exam consists of two portions, a practical exam at which three different tissues must be prepared for transmission electron microscopy and other related work."

"The written portion will consist of a comprehensive three-hour exam covering the basic theory and operation of transmission and scanning electron microscopy and all other instruments used in an electron microscopy lab," she added. "Basic principles of reagent and specimen preparation also will be covered."

The examination costs \$50 and it will probably be administered through facilities used by the American Society for Clinical Pathologists, which certifies clinical pathology technicians.

"A specialty in electron microscopy is important because it will give these people something beyond the technical status delegated up to now," Prof. Wittig said. "The sophisticated knowledge necessary to do technical work in this area should be recognized."

"Other certifications are granted in medical-biological areas and this will be the first certification granted in a solely biological area."

"I feel that students who have been prepared at SIUE in recent years will be fully if not over-qualified to pass the examination." The University of Illinois is the only other institution in the metropolitan area or state that provides such training.

CAMPAIGN EFFORT in the Oct. 4 special referendum to retain the city street superintendent's office as an elective one is made in this sign in front of the home at 2202 Missouri Ave., which urges voters to cast "yes" ballots. The right to vote on municipal officers has been an issue in demands for the special election. The street superintendent's office hereafter will be appointive under an ordinance enacted by the City Council last April, unless the current law is upset by election results. The sign says, "Vote Yes Oct. 4 before you lose your right to vote." (Press-Record Photos)

Hospitalization state costs up

Illinois Comptroller Michael J. Bakalis today released figures which show that last year's state spending for hospitalization under the Medicaid program increased by almost 25 per cent.

In his monthly fiscal report for August, Bakalis noted that state spending for hospital inpatient services during fiscal 1976-77 rose to \$354 million—an increase of 24.7 per cent over the previous year.

"This increase was partly the result of lifting a hospital cost freeze last spring," Bakalis said. "The continuing escalation of costs accounts for virtually all the increases in public aid spending. In fact, income assistance for the poor actually declined from the 1976 level."

The August fiscal report notes that total Medicaid spending was \$664 million in fiscal 1977, up \$134 million (16.2 per cent). Most of that increase was in hospitalization costs. The cost of hospital out-patient services rose by 15.3 per cent over 1975-76.

"No other area of state spending comes anywhere close, to rivaling this program's ability to absorb new state revenues," concluded Bakalis.

The report notes that compared to last August, aid to families with dependent children, \$7,800 fewer people received (AFDC) benefits this year due to an improved economy and increasing effort by the Department of Public Aid to keep ineligible off the rolls. As a result, spending for income maintenance programs in the first two months of this fiscal year was \$1.2 million less than a year ago.

UNDERCOATING—RALPH'S TEXACO 22ND & MADISON AVE.

Steelmakers urge push for new energy supplies

Edgar B. Speer, chairman of the United States Steel Corporation and the American Iron and Steel Institute (AISI), believes that the nation's energy program will fail unless "all stops" are pulled to develop new energy supplies.

Testifying in behalf of AISI, Speer has told the Senate Finance Committee at hearings on tax provisions of the National Energy Act that conservation is an important element of any energy program. But he added that "unless it is well balanced with a plan to substantially increase the supply of all energy—whether it be natural gas, oil, coal, nuclear or solar power—it is our opinion the overall program will be a failure."

The steel industry spokesman noted that all successful programs launched by this

country in the past at times of national emergency—such as the space program and major medical breakthroughs—"have had the element of pulling all stops and going forward with an all-out effort with all obstacles eliminated."

Speer said the National Energy Act passed by Congress early in August doesn't address itself to the problem that the energy resource industry, like steel, is highly capital intensive.

Rather, it provides for both producer as well as user tax provisions that are punitive in nature for the user and at the same time drain off investment capital for the supplier of energy.

Taking much-needed capital to solve the energy problem is "counter-productive to meeting our energy goals and could be catastrophic to our overall

economy," Speer told the committee.

The steel industry, he said, has reduced energy usage per unit of steel production an average of one per cent per year over the past 15 years and it has the technology to reduce fuel usage of a "greenfield," or new integrated, plant by 30 to 35 per cent.

More plants aren't being built "because of excessive regulation by government which causes a continual drain on capital," he said, "and antiquated tax laws which don't address themselves to the need for capital formation to replace facilities and expand capacity."

Speer said the steel industry believes price controls on natural gas and oil need to be phased out over a short period of time, and that piowback provisions should be adopted to

encourage producers to channel investment into the search for additional energy supplies.

He also urged discarding any ideas of eliminating the depletion tax credit on coal, oil shale, yellow cake or any energy-hard minerals.

Music, art, speech students perform

Music, art and speech students who received scholarship awards this year from the Nameoki Women's Club to further their education and broaden their field of interest presented the program at last week's club meeting.

The event, held at the Nameoki Recreation Center, Amos and Franklin avenues, opened the new club season for the women's group.

Twenty-eight members attended and a special guest, Mrs. Nona Gilbreath of Troy, president of the Madison County Federation of Women's Clubs.

A luncheon was served by Mrs. Ethel Beeler, Mrs. Maxine Maas and Mrs. Marian Shelton.

An entertaining program was given by the young people, who attended various workshops during the summer months at universities and colleges, using

scholarship grants awarded by the Nameoki Women's Club. Three music students, Darlene Joyce, Kate, Craig Ryterski, tenor saxophone and Larry Johnson, trombone, presented several musical selections.

The trio was accompanied on the clarinet by Terry Waffler, instrumental music teacher and band director at South High School, who was the recipient of a music scholarship in 1966 from the women's club.

Donna Laughlin and Lorrie Clemons, art students, exhibited various forms of artwork about which they received instruction while attending art workshops.

Mark Belleville, a speech student, gave a humorous reading, acting the character roles found in the fairytales, "Goldilocks and the Three

Bears." Miss Lucinda Huck, president, was in charge of the business session.

Reports were heard from committee chairman and plans for the Oct. 19 meeting were announced. A representative of Illinois Bell will be the speaker, it was reported.

Members present at the luncheon were: Mrs. Margaret Aronovitz, Mildred Branding, Harriet Byers, Betty Caldwell, Bernadine Cooley, Muriel Dressel, Ella Mae Harsh, Harriet Horn, Alma Irvin, Carrie Jensen, Jeanette Kraus, Claudia Lentz, Dorothy McCauley, Millie Meek, Pauletta Mueller, Lois Ann Parmley, Donna Schaefer, Verna Stuart, Irma Taylor, Helen Todd, Ella Wade and Mary Werner, and Misses Hazel Towery and Lily Dod.

'Chrysalis' to be shown at First Assembly

A production entitled "Chrysalis," will be presented by Camel Productions Thursday at 7 p.m. at First Assembly of God Church. This media experience is created with nine computerized projectors and stereophonic soundtrack, featuring stills, films, and music by top artists in Europe, Canada, and America.

"Chrysalis" portrays man's inhumanity to man and his need for personal transformation in this area. It examines man's desire to push others around and dominate them; man's desire for fast results, and man's desire for revenge, according to the Rev. Dennis Ripley, church pastor. "Chrysalis" concludes with a challenge for man to choose to make positive changes that will bring true satisfaction and lasting joy, he said.

The youth group of First Assembly is sponsoring the California-based Camel Productions. Camel specializes in High School Assemblies and concerts. They will be at Granite City South High School Tuesday for a presentation at an Assembly Program. The Thursday evening showing of "Chrysalis" is open to the public.

Nu Zeta Chapter greets rushees

Nu Zeta Chapter, Beta Sigma Phi Sorority, entertained rushees at last week's meeting in the home of Mrs. Margie Williams, 2118 Johnson Road. The special guests were Debbie Brown, Betty Thomas and Rhonda Dooley, who viewed a display table holding awards and gifts available to sorority members and heard details of the organization's objectives.

Carol Meertlen, president, conducted the business session and plans were finalized for a bayside, scheduled Saturday in Edwardsville. Refreshments were served by the hostess to Lynette Cook, Laura McIlroy, Amy Brasfield, Cheryl Barton and Leoma Mack, who will entertain the chapter Oct. 4.

Parents group meets Wednesday

Granite City Parents Without Partners Chapter 470 will meet Wednesday evening at St. John United Church of Christ, 2901 Nameoki Road.

"Prevention of Child Abuse" will be the topic of discussion with the Rev. Kenneth Edelman as guest speaker.

Virginia "Ginger" Sampson, public relations director for the chapter, said potential new members are being invited to attend the registration period at 7 p.m. Wednesday and remain for the general meeting, starting at 7:30 p.m.

All single parents are eligible to participate and custody of children is not a requirement, Mrs. Sampson said.

Parents Without Partners is a non-profit educational organization, devoted to the welfare and interest of single parents and their children, she explained.

The Granite City chapter meets on the fourth Wednesday evening of each month.

Restoration group opens season

A potluck supper was held last week by the Downtown Neighborhood Restoration Society at the Tri-City Area YMCA to open the new fall season.

Forty-six members and guests, Mr. and Mrs. James Raub, Mrs. Mary Gauen and Mrs. Carol Conover, were in attendance.

Various projects for neighborhood improvement were proposed and discussed. Specific projects to be initiated will be determined at the group's next business session.

Judy Padgett spoke about the

Retired persons told of new pet care program

A new program by the Animal Protective Association in which details for the care of pets are recorded for use if an owner becomes ill or is hospitalized was explained to members of the American Association of Retired Persons in a meeting at Anchorage Hall.

Oscar Ash, vice-president, presided at the meeting in the absence of Elma Hoover, president. Elmer Gruen gave the prayer and led the pledge of allegiance to the flag. Neva Werth, secretary, reported on the minutes and Edna Isham, treasurer, gave a financial report.

Mary Ann Loftus and Ruth Jolly of the Animal Protective group spoke about the program in which anyone can sign a card giving instructions for the care of their pet or pets should the owner become ill, be hospitalized or even deceased. This card would be kept on record by the association where would see that the instructions were followed for the care of the pet or pets.

A public meeting sponsored by the society and presented by the East-West Gateway Coordinating Council's House Task Force last week, at which problems concerning "redlining" were explored.

"Redlining" is a practice of denying insurance or housing money to certain areas because they are considered poor insurance risks, it was explained. All meetings of the society are open to the public, a spokesman announced. Mrs. Marlene Ross will host the next session at her home Oct. 4.

Thompson, legislators to address industries

The Southern Division of the Illinois Manufacturers' Association, which includes businesses and industrial firms in Madison, St. Clair, Monroe and adjacent Illinois counties, working with the Southwestern Illinois Industrial Association (Wood River), has arranged a series of four dinner meetings and seminars.

Theme for 1977-78 will be Illinois industry and government—where we stand on important issues. The meeting dates, subjects, times and speakers are:

Tuesday, Oct. 11, 5 to 8:30 p.m. "Crucial Issues Facing the Fall Session, Illinois General Assembly." Seventeen of 20 area state legislators plan to present their views on current issues.

IMA Director of Government Affairs William Dart will moderate the discussion and review industry's positions on legislation.

Tuesday, Nov. 8, 5:30 to 8:30 p.m. "Corporate Political Action Committee." Speakers are Bernadette A. Budde, director, political education, Business-Industry

Political Action Committee, and Douglas Cannon, treasurer, Amoco Political Action Committee.

Tuesday, Jan. 10, 5:30 to 8:30 p.m. "The State of the State"—Governor James R. Thompson (tentative).

Tuesday, March 7, 5 to 8:30 p.m. Seminar by Illinois Environmental Protection Agency on toxic materials, hazardous waste disposal, permits and upcoming legislation.

Membership in IMA's Southern Division is open to any business or industrial firm in the Southern Illinois area. Firms do not have to belong to the IMA to participate.

Additional sponsoring organizations include East Side Associated Industries (East St. Louis) and the Belleville Area Chamber of Commerce.

All four meetings will be dinner meetings at the Missouri Athletic Club, St. Louis. Companies can purchase a season ticket, good for all four events, or individual tickets.

RESPECT LIFE WEEK is proclaimed by Mayor Paul Schuler for the week of Oct. 2 through Oct. 8. With the mayor are Mrs. Barbara Moniz and Edward Boyer, members of the Granite City Right to Life. Activities will include a march from the South High School to Civic Park for a rally at 10 a.m. on Oct. 8.

YMCA expands programs

The Tri-City Area YMCA, although continuing many of the traditional programs currently is making changes and adding new services, according to Paul Grennell, executive director of the "Y."

Grennell spoke to the Thursday noon meeting of the Granite City Optimist Club in the "Y."

Grennell said that rather than the traditional gym and swim programs, the staff and board of the "Y" are trying to make the programs more valuable and meaningful by teaching value systems.

New programs started at the

YMCA include fitness classes for adults.

The senior citizen program is being expanded to include fitness, social and aquatic activities.

Grennell noted the new mercury vapor lighting has increased the light in the gym 10 times, at one third the cost.

He thanked the Optimist Club for purchasing the gym mats and said they added much to the programs in the gym. The programs more valuable and meaningful by teaching value systems.

Ed Mercer, physical director

at the "Y," was also a guest of the club.

Major item of business was a discussion of the Camelot Auction scheduled for Saturday, Oct. 1, beginning with a buffet dinner at 6:30 p.m. at the Sunset Hills Country Club.

It was reported that a few tickets at \$12 each still are available to the public and may be purchased by contacting any Optimist or Rotary Club member.

Several hundred items of all descriptions will be auctioned with a goal of \$10,000 for charity.

Navy Mothers to hold 'Tag Days' this week

The annual "Tag Days" sponsored by the Quad-City Navy Mothers Unit 850 will take place Thursday and Friday in the Quad-City area. It was announced today by Mrs. Verna Spurrier, project chairman.

Volunteers from the local club will solicit donations from passersby and shoppers at several locations, including the downtown areas of Madison and Granite City and the suburban shopping centers in Nemo and Pontoon Beach, the chairman said.

Proceeds from the annual tag sale will be used to further the club's charitable efforts which are geared to helping hospitalized servicemen and veterans, Mrs. Spurrier explained.

Plans for "Tag Days" were finalized at the Navy Mothers meeting Thursday evening at the Veterans of Foreign Wars Hall, 2044 Washington Ave.

Members authorized \$25 donations each to the Great Lakes Naval Hospital, Great Lakes, Ill., and the Danville (Ill.) Naval Hospital.

Hostesses for the evening were Mrs. Jean Teller, Mrs. Edna Miller and Mrs. Mary Lee Butler.

Refreshments were served to 16 members and two guests, Mrs. Ellen Pabst and Mrs. Yvonne Passig.

Games were played during the social hour and those excellent and winning awards were Mrs. Pabst, first, Mrs. Margaret Minzes, second, and Mrs. Betty Teller, third.

A "mystery" package was awarded to Mrs. Ernest VonNida, and Mrs. Elizabeth Ramsey received a special gift.

Jail term authorized for obscene phone call

A bill to combat obscene phone calls by providing a penalty of up to six months in jail was signed into law last week by Governor James R. Thompson.

The measure, sponsored by

Rep. Everett G. Steele (R-Glen Carbon), designates "telephone harassment" as an offense.

It requires that a warning notice about such harassment and the possible penalty be published in every directory. The new law also requires telephone companies to cooperate fully with law enforcement officials to prevent and detect telephone harassment.

Besides the jail sentence, an offender can be fined up to \$500.

The Illinois Commerce Commission sets new limits on use of natural gas

Because it finds a critical natural gas situation, the Illinois Commerce Commission has issued an order that describes certain uses of natural gas as non-essential. The order forbids utilities, under jurisdiction of the Illinois Commerce Commission, to distribute natural gas for new installations of these non-essential uses on or after October 15, 1977.

The natural gas uses declared non-essential are:

1. Direct heating of public, semi-public or apartment complex garages used for parking non-emergency vehicles
2. Gas lighting
3. Decorative lighting or flares
4. Heated or cooled air doors
5. Swimming pool heaters
6. Outdoor heaters and patio heaters (human comfort, non-work areas)

Let's conserve energy now so there will be enough for the winter months ahead.

Faculty pacts being sought

Faculty members at five Board of Governors campuses demonstrated Thursday in support of their union's attempt to win the first collective bargaining agreement in an Illinois university.

Negotiators for Local 3500, of the American Federation of Teachers, and the board have been bargaining for more than 10 months since the AFT was chosen to represent the faculty last October.

"There is serious consideration of a strike if progress is not made soon," union president Margaret Schmid said. "Demonstrations were called on the day of the Board of Governors meeting at Western Illinois University, Macomb, to emphasize the faculties' anger at foot-dragging and failure to bargain in good faith."

Informational picketing also took place at Chicago State University, Northeastern Illinois University in Chicago, Governors State University at Park Forest South and Eastern Illinois University, Charleston.

SELECTED FOR TRAINING at Sheppard Air Force Base, Tex., in the transportation field after completing basic training at Lackland AFB, Tex., is Airman Raymond M. Valencia, whose parents are Mr. and Mrs. Otilio Valencia Jr., 1701 Bremen Ave., Granite City. During the six weeks at Lackland, the airman studied the Air Force mission, organization and customs. Airman Valencia is a 1977 graduate of Granite City High School North.

On four-year scholarship

John A. Petrovich, Jr., 18, son of Mr. and Mrs. John A. Petrovich Sr., 304 Franklin Ave., is attending Washington University, St. Louis, on a full, four-year scholarship.

He is a freshman pre-medical student majoring in biology. Petrovich is a member of the pre-medical society and is currently engaged in research in molecular genetics (outside of regular studies) with the department of biology.

He was employed this past summer as an operating room technician at St. Elizabeth Hospital in Granite City.

GRANITE CITY PRESS-RECORD Mon., Sept. 26, 1977 Page 16

Venice school district ok's \$500,000 in tax warrants

The issuance of tax anticipation warrants, totaling \$425,000 from the education fund and \$75,000 from the building fund, was authorized by the Venice Board of Education at its meeting Thursday night.

The board approved investment of \$45,000 in passbook savings from four different funds.

In other business, a low bid of \$8,852 was accepted from Bannan Educational Systems,

St. Louis, for purchase of reading and mathematics equipment and materials under the Title VII Program.

Subject to parental permission, the board approved a health care program in the district through which Venice students will receive sodium fluoride mouth rinses at regular intervals.

The project is being arranged under supervision of the school nurse through the county Department of Health.

Use of a room in the school building was granted to a group of parents planning to organize a club for the parents of Venice preschool children and kindergarten pupils.

Board members agreed to establish a yearbook fund and publish such a volume at the end of the current school year.

Two teachers, Gwendolyn Duke and Mary Harper, volunteered to work with students to compute the book, board members were told. The last Venice yearbook was published about five years ago.

Teacher aides were granted three days leave per year to attend the funerals of immediate family members. The aides had requested five days for this purpose, the board was informed.

News notes

An Equal Rights Amendment support conference is set for 9 a.m. to 3 p.m. Oct. 8 in Springfield. Sponsor is a statewide coalition of those seeking ratification of the proposed 27th amendment by March 22, 1979.

New tracks are being installed by the Illinois Central Gulf Railroad on its railbed between Alton and the Quad Cities to accommodate its freight traffic and Amtrak passenger trains.

The U.S. House voted 359-70 Friday to increase from 65 to 70 the age at which employers can require their workers to retire.

By next summer, utilities in Michigan and Arkansas expect to be able to shut off home air conditioners when electric power is needed elsewhere.

Stock will be exchanged to merge the Frisco and Burlington Northern railroads.

The Southwestern Illinois Law Enforcement Commission last week acknowledged receipt of a \$50,000 study of area criminal justice system needs and decided to meet with the consultants' research team in November. Among those criticizing the report was Granite City Police Chief Ronald Veizer.

Tax collections by the Illinois Department of Revenue in the 1976-77 fiscal year topped \$5 billion for the first time in state history, according to figures reported Friday by the department. Total collections, including local taxes collected for Illinois communities by the department, were \$5,337,967,666, generated by 27 state laws administered by the department. The amount was 10 per cent higher than 1975-76 collections. The state's income tax, which brought in nearly \$2 billion, was the largest single revenue producer.

Illinois Agriculture Director John Block, in London on a

European market evaluation, said last week that he saw excellent marketing possibilities for Illinois grain in the Third World countries and in some European countries primarily outside the European Economic Community. Block said breeding stock from Belgium is being used to start hog farms in Spain, Portugal and other countries. "When they do this," Block said, "these new hog farms are going to need Illinois grain."

COUNCIL COCHAIRMAN for Girl Scout cookie sales are (left to right) Edna Bono of Granite City and Carol Hair of Edwardsville. They are pictured at the kickoff gathering for the yearly project.

JANIS SMITH

SYLVIA MOSKI

CAROL McNEELY

Girl Scouts will begin cookie sale

Beginning Thursday, many homes will find a Girl Scout knocking at their door. This is the time of the River Bluffs Girl Scout Council's annual cookie sale.

Girls from this area will be taking orders Sept. 29 through Oct. 9. Each girl will have an order card to show the six varieties being offered.

Items this year include Savannahs, Vanilla and Chocolate Sandwich, Creams, Chocolate Mints, Scout-teas, Chocolate Chip cookies and Cheddarette crackers.

The price of each item is \$1.25 a box, payable upon delivery of the cookies Nov. 8-18.

The cookie sale is the main financial project for most troops during the year. Sixty per cent of each girl's sale

benefits individual troops, girls within the troops, and the council program, with emphasis on the girls' camping program.

The scouts have five camps and camping equipment available to them because of the public's annual support of the cookie sale.

Co-chairmen of the sale in the council are Edna Bono of Granite City and Carol Hair of Edwardsville.

Chairman for this district is Karen Scheib.

Quad-City neighborhood cookie sale chairmen are Judy Donaldson of Neighborhood One, Janis Smith of Two, Paulene Schank of Three, Sylvia Moski of Four and Carol McNeely of Five.

Annual meet for leaders, Girl Scouts

The River Bluffs Girl Scouts will host its annual meeting Tuesday, Oct. 4, at 6:30 p.m. at St. Paul's Lutheran Church in Troy.

A family style dinner will be served at a cost of \$3 per person. The guest speaker is Darrin Arandjelovic, associate professor in the German department at Lewis and Clark College, Godfrey. She will speak on her experiences as a prisoner of war in a German concentration camp during World War II.

Adults and Senior Girl Scouts are being invited to attend. Advance reservations must be made at the Council Office, P.O. Box 430, Glen Carbon 62034. Reservations are limited to 200 persons.

MARRIED. Mr. and Mrs. Roland Gerard Woesthaus, who were married at St. Mary's Catholic Church in Madison. The bride is the former Janice Marie Warchol, daughter of Mr. and Mrs. Albin Warchol, 3204 Willow Ave.

Miss Janice Warchol married at St. Mary's

St. Mary's Catholic Church in Madison was the scene of the wedding on Aug. 26 of Miss Janice Marie Warchol and Roland Gerard Woesthaus.

The Rev. James Zaunmeyer heard the couple exchange their marriage vows in a double ring ceremony at 6:30 p.m.

The bride is a daughter of Mr. and Mrs. Albin Warchol, 3204 Willow Ave. The bridegroom's parents, Mr. and Mrs. Ben Woesthaus, reside at 1200 N. 89th St., East St. Louis.

Appropriate selections were played on the organ by Jim Havranek, who also accompanied the soloist, Donna Milken.

Miss Carolyn Warchol, sister of the bride, was maid of honor and the bridesmaids were Miss Judy Taylor, Mrs. Andrea Warchol, the bride's sister-in-law, Mrs. Pam Kaburek and Miss Barbara Sasyk.

Jennifer Eisele, a niece of the groom, was the flower girl and Ryan Thebeau, the bride's cousin, was ringbearer.

David Woesthaus served his brother as best man. The groomsmen included Jim Warchol, brother to the bride, Jimmy Becker, Tom Beucher and Terry Johnson.

Mike Murray and John Kistner headed the corps of ushers.

The former Miss Warchol chose a wedding gown of chantilly lace, fashioned with a molded bodice, a sweetheart neckline, edged in sequins, and long, straight sleeves. The skirt, created of lace tiers, swept into a chapel train.

A mantilla-style veil adorned

with lace motifs was attached to a Juliet headpiece of chantilly lace, and she wore a strand of pearls belonging to her great-grandmother. The bridal bouquet was a multi-colored array of hand-fashioned silk flowers.

The bridesmaids were dressed alike in voile gowns in pastel shades. A wide band of cluny lace in ivory trimmed the empire bodices and lace topped a deep flounce around the hemline.

A removable triangular scarf outlined with ivory cluny lace covered the shoulders and each attendant carried a colonial bouquet of vari-colored flowers.

For her daughter's wedding, Mrs. Warchol selected a long gown of pale blue polyester knit. A short sleeve jacket detailed with embroidery was worn over the sleeveless dress.

Mrs. Woesthaus appeared in a full-length gown of brown chiffon made in shirtwaist style with long sleeves and accented with gold polka dots and a gold belt.

After the service, a reception for family and friends was held at St. Stephen's Veight Hall.

Following a wedding trip to Florida, the couple is now at home in Granite City.

The bride is a graduate of Althoff Catholic High School and Belleville Area College. She is employed as a switchboard operator at St. Elizabeth Hospital.

Her husband graduated from Collinsville High School, served in the U.S. Marine Corps and is now employed at National Lead Co.

First reunion for Meyer family

The family of the late Fred and Anna Meyer of Nanook held its first reunion last week at the home of Mr. and Mrs. Alvin Meyer, 525 English Place.

The couple was assisted by Mrs. Jack (Shirley) Jones and Mrs. Rollon (Eleanor) Bickell. Luncheon was served and several of the guests spent the afternoon hours swimming.

Among the family members present were:

Mr. and Mrs. Edward Brandes, Mrs. William (Amelia) Brandes, Mrs. Earl (Dorothy) Hogan, Anthony, Carl, Earl W., Anna, Shirley, Joe and Jane Hogan, Mr. and Mrs. David Parker, Debbie and Connie Parker, Mr. and Mrs. Frank Parker Sr., Vickie and Frank Parker Jr.

Mr. and Mrs. Fred Meyer, Mrs. Chester (Vera) Whyers, Mr. and Mrs. Chester Whyers Jr., Joey and Richie Whyers, Mr. and Mrs. Alvin Meyer, Randy, Sandy and Alan Meyer, Mrs. Joseph (Esther) Bennett, Mr. and Mrs. Dayton (Carrie) Corey, Mr. and Mrs. Charles Bennett, Mike Bennett, Mr. and Mrs. James Dycus Jr., Jimmy, Billy, Ronnie, Tony and Gina Marie Dycus, Mr. and Mrs. Rollin Bickell, Rola Ann and Rollin Bickell Jr., Mrs. David (Shirley Gale) Byrum and Scott Byrum, Mr. and Mrs. Jack Jones and Jack Jr.

Education theme for Bay View

Mrs. E. M. Aronovitz entertained the Bay View Reading Club at her home, 2107 Ames Ave., Thursday afternoon.

A dessert course was served by the hostess at 1 o'clock and the program was given by Mrs. Russell Johnson, based on the theme—"Education."

The speaker read excerpts from several books pertaining to educational trends at universities and colleges attended mostly by black students.

Mrs. Dale Rea, president, was in charge of the business meeting and announced a district meeting of federated clubs will take place Oct. 18 in

Columbia, Ill.

Those planning to attend were asked to make reservations by the Oct. 13 meeting.

Mrs. E. A. Mueller expressed appreciation to the club for the gift she and her husband received on the occasion of their 50th wedding anniversary.

Mrs. Milton Allen will serve as hostess at the reading club's next meeting, scheduled to be held at St. Peter Evangelical United Church of Christ.

Maryville speed limit sought to cut traffic during construction

An Ordinance that would establish a 20-mile-per-hour speed limit on Maryville Road — now under construction between Pontoon Road and Highway 162 — is expected to be placed on final passage during the regular meeting of the Granite City Council Tuesday night.

The measure, supported by Alderman Ronald Coleman of the Seventh Ward as a means of controlling traffic on the uncompleted roadway, was placed on final passage last week but failed to receive sufficient votes. The bill then was placed on first reading on a motion by Coleman.

Coleman told Council members that motorists "are openly ignoring the fact that the road is under construction," and consequently are creating a traffic hazard as well as hampering construction work and causing dust problems for residents who live along the highway.

Some aldermen contended, however, that establishment of a speed zone, with signs posted along the roadway, would cause motorists to believe that the roadway was available for use. Police have said they have little control over use of Maryville

Road by motorists because many persons need to use the road, or cross it, to gain access to their homes.

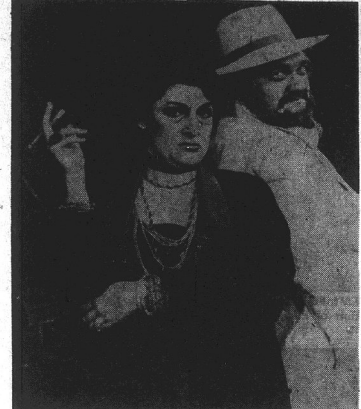

Mayor Paul Schuler remarked that drivers "are using the uncompleted sections of Maryville Road like it is a super highway."

City Engineer Monroe Brewer said that "Actually Maryville Road is supposed to be closed and is not to be opened until it is completed."

Alderman Sam Whitmer said that he believes the enactment of a speed limit ordinance and the posting of signs would make the city liable in any accident that might occur.

On a motion to suspend the rules to place the ordinance on final passage, the aldermen voted 9 to 4 in favor. The motion lost because 10 votes are needed to suspend the rules. Council members then voted 9 to 4 in favor of Coleman's motion to place the bill on first reading.

Access to the roadway is available from several intersecting streets and on occasions the barricades have been moved to gain access to the roadway.

CAMINO REAL AT SUE. "Camino Real," Tennessee Williams' comic fantasy, was presented at Southern Illinois University at Edwardsville, Sunday at 8:15 p.m. in the Communications Building theater. The performance was by The Acting Company.

School insulation legislation signed

Two education bills, signed by Governor James R. Thompson, are expected to be of special benefit to school districts, State Superintendent Joseph Cronin said Friday.

The first, HB 691, permits a school district to use existing taxes, set aside for fire prevention and safety, for energy conservation purposes if they are not needed for the completion of already-approved projects for safety.

"The bill encourages school boards to spend funds on energy conservation measures, to repair boilers and add insulation to save on fuel bills," Dr. Cronin explained.

The second, HB 695, allows districts to use the services of a realtor to sell school buildings no longer needed. "Some school boards are closing their second and third building and need help in finding prospective purchasers, especially in residential areas," the superintendent commented.

In discussion the two bills, Cronin praised the sponsors, State Rep. Samuel McGrew (D-Caledonia) and Rep. Joe E. Luco (D-Edwardsville). "Both bills are extremely timely," he said.

"With the cost of fuel skyrocketing and the winters in Illinois becoming colder, school districts in many areas have been strapped by whopping fuel bills. HB 691 will help to

alleviate many of the problems leading to such high bills.

"In sales of schools, prior to the governor signing the bill, many school districts were hampered by long delays in selling buildings."

"If the first bidding process produced no bids or bids below the acceptable price, the only alternative a district had was to set up a second bidding session, hoping the district would get the right price. HB 695 will eliminate this obstacle by allowing a district to engage the services of a realtor."

Methodist Village choir to sing here

Trinity United Methodist Church will have the United Methodist Village Choir of Lawrenceville to sing during the morning service on Sunday, Oct. 2.

United Methodist Village is a Christian retirement center of over 300 retired people living in the home, cottages and health center.

The choir of about 25 members

has traveled all over Southern Illinois, singing from Missouri to Indiana to Kentucky in 16 churches this summer.

Virgil Lambert, choir director, will give information about the Methodist Village during the service.

Trinity Church, East 25th and Henry, is inviting the public to the service at 10:40 a.m. Oct. 2.

Parishioners greet Rev. Henry Schmidt

At a series of informal gatherings last week about 500 parishioners of St. Elizabeth Church greeted the Rev. Henry Schmidt, newly appointed priest.

The Rev. Schmidt met church members following each Mass during informal receptions arranged by the St. Elizabeth Altar Society, under the direction of Mrs. Mary Evelyn Yenko, president.

Public Aid services to move nearer bulk of the population

The decision by the Illinois Department of Public Aid to relocate its Madison County services makes a lot of sense. Applicants and recipients needing to visit the headquarters in Edwardsville have found transportation to be inadequate. By

United Way campaign emphasizes that 'you make it happen'

"They" are often blamed if a community is beset by problems, but the Tri-Cities Area United Way accurately puts the emphasis on "you." It is the citizens, workers, businesses and organizations of this community that make possible the important UW agency services for families, children, recreation, character-building, health and rehabilitation. The yearly drive is being formally launched on Wednesday morning and will

Industrial park, rail spur expected to diversify the economy

"Stimulating diversified economic growth and creating jobs for unemployed and underemployed workers in Madison County" are the goals of a \$144,600 U.S. Economic Development Administration grant announced last week by Congressman Melvin Price. The City of Madison was the original applicant. The funds will be used to expand the successful Stephen Maeras Industrial Park, providing developed sites as an inducement to industries to locate plants in this area. The project involves installation of a

Rev. Baugh leaving after active ministry in this community

Departure of the Rev. Roy L. Baugh from Niedringhaus United Methodist Church will be noted with sorrow by the countless number of Quad-Cityans who knew him as a friend, fellow citizen and spiritual leader. Active in a wide range of neighborhood and community endeavors, he helped materially to upgrade governmental

Doctor brought happiness to couple

To the Editor: I do not believe in abortions and my heart goes out to the family of Dr. Zevallos' patient who died recently. But I feel I, too, must speak out for the happiness he has brought to my husband and me. And I'm sure there are many other women who feel the same way I do. Let's give Dr. Zevallos the credit and support he needs and deserves. He's been a caring and loyal doctor for a long time in this community. He lost his patient, a young girl who didn't want her pregnancy. But let's

Broad responsibilities for President

To the Editor: In the final analysis, the Bert Lance ballyhoo amounts to "much-ado-about-nothing." The real, consequential contest is in Washington, D.C., these days lies in the euphoric disillusion of one man. The fact is that, unlike Jimmy Truman, George "Good Man" Jimmy thinks that he and "President" Carter are one and the same. No doubt, Jimmy Carter and Bert Lance have every right to remain lifelong friends and they will, no matter what. But President Carter has no time or latitude for the cordial friendship that has already seriously undermined his chances to administer our republic effectively. It's time to wake up, Jimmy. The dream is no longer a dream. It's a reality. And in the cold light of dawn, the responsibilities of power often outweigh the Utopian fantasies which may have motivated achieving it. There are no pot-bellied stoves or crackler barrels in the oval office. Even if they were there, their presence would only be symbolic, not real. For the presidency demands a solitary vigilance, devoid of friendship. For friendship is a luxury a President can ill afford. Interestingly enough, the pot-bellied stove, provides a corollary to the Presidency which proves most appropiate in this instance. The soothing warmth generated by that four-legged, heating bastion of bygone days is of value to those who huddle to its comfort only if the temper of its steel is adequate to protect them from the fire which it contains.

Balloon 'race' ends in Pontoon, Mitchell fields

By GARY SCHNEIDER

Press-Record Staff Writer
Excitement started in St. Louis' Forest Park during Saturday's "Great Forest Park Balloon Race" spilled over into the Quad-City area Saturday evening as the giant hot-air balloons drifted lazily over this area, many landing just northeast of Pontoon Beach.

Twenty-nine balloons entered the race and 28 lifted off from Forest Park, leaving the Rock City Gardens balloon entangled in a tree in the park.

The Rock City, Mo., entry fell victim to tricky winds on takeoff which pushed it sideways and into a large tree seconds after its liftoff. There were no injuries, but the balloon itself was destroyed.

Winds from the southwest pushed the giant balloons across the Mississippi River into the Quad-City area. While the event was termed a race, it actually was a "hare and foxes" test of accuracy.

The Busch Gardens balloon, host of the event, was designed to be the last balloon and was the first to launch about 4:15 p.m. and the pilot, Tom Rutherford of Albuquerque, N.

M., had instructions to fly about 45 minutes and then land in a large field.

About 10 minutes later, the other balloons began launching to attempt to find and land near the hare balloon, the one landing nearest being declared the winner.

Guided only by the winds, which changed directions slightly at differing altitudes, the hot-air balloon pilots had to first find the hare balloon and then attempt to land near it.

The Busch Gardens entry selected a field near Interstate 270 and Route 111 as its landing spot and shortly thereafter balloons began landing throughout the Mitchell and Pontoon Beach areas.

The winner was the chicken-shaped entry of Col. Sanders Kentucky Fried Chicken which landed about 150 feet away from the hare balloon.

Illinois State Police reported severe traffic problems from spectators on Interstate 270 and other routes who parked their autos on the shoulders of the roadways to watch the balloons land.

The Madison County Sheriff's Department also received

complaints from several farmers of damage to farm fields from the vans and pickup trucks driven across the fields to retrieve the balloons.

Landings were reported along Chain of Rocks Road, near Old Alton Road, near Hedge Road in East Alton, north of I-270 and east of Route 111 and on the campus of Southern Illinois University at Edwardsville.

No injuries were reported as the pilots maneuvered over radio towers, power lines and other obstacles before landing. While most balloons were able to cope with the tricky winds, James Buddy Thompson, pilot of the hot-air blimp named the Yellowstone Airship, decided not to launch his giant vehicle, much to the disappointment of the crowd gathered in Forest Park.

The craft is 100 feet long and 60 feet tall, nearly as large as a Goodyear blimp, but is lifted entirely by hot air.

A special permit for the event here had to be obtained from the Federal Aviation Administration which issued an "experimental" permit, since the ship's 40-horsepower engine puts it in a different class from the hot-air balloons.

All is ready for Camelot Auction

What is probably the social event of the year and certainly one of the most worthwhile will be held Saturday, Oct. 1, at the St. John's Rotary and Optimist Clubs again join forces for the Camelot Auction. The event will begin with a buffet dinner at 6:30 p.m. and a goal of \$10,000 for local charities at the auction has been set. Tickets are available from any member of either club at \$12 each and are still available. More information on tickets

may be obtained by calling John McDonald at 876-1212.

Following the dinner, a "lightning fast" auction will be held with items and services ranging from \$5 and \$10 to several hundred dollars being sold.

Numerous prizes also will be awarded during the event. Proceeds of the auction will be divided equally between the sponsoring service clubs and worthy community projects.

New grand jury to study prisoners' allegations

A Madison County grand jury Thursday recommended that the new grand jury appoint a committee to investigate allegations made by prisoners at the county jail at Edwardsville who contend their Constitutional rights had been violated by jail conditions.

A suit filed by a group of prisoners which alleged lack of cleanliness, unbearable heat, overcrowding, poor facilities, a lack of proper attention to their needs and other problems was dismissed by Circuit Judge Willard V. "Butch" Portell, pledged to ask a grand jury to investigate the allegations.

The outgoing grand jury issued its report at its final meeting Thursday in which it recommended the next grand jury appoint a small working

committee to meet with Madison County Sheriff John Maeras and others to investigate the allegations. The outgoing jury also recommended that the new grand jury investigate continuing moisture problems in the recreation area of the Madison County Juvenile Detention Home in Edwardsville.

The new grand jury, impaneled this morning by Chief Criminal Judge Joseph J. Barr and sworn in by Circuit Clerk Willard V. "Butch" Portell, includes Marilyn Schaffner, 1606 Elizabeth St., Madison, and Mildred L. Condis, 1302 Rhodes St., Granite City.

William R. Riekowski, Collinsville, was designated foreman. The jury will serve four months.

Three charges in assault

Harry Cavness, 32, of 2301 Nameok Road, was admitted to St. Elizabeth Hospital at 12:10 p.m. Friday after suffering from being beaten with a tire tool as he was trying to break up a fight in the parking lot of the Oriental (Hut) Lau Lounge, 1537 Johnson Road.

Cavness, an employee of the lounge, suffered several cuts to the head, right elbow, chin and right index finger, multiple abrasions to the back and right knee and possible other head injuries.

John Brooks, 21, of 2206 Alexander Ave., was treated for a cut on the left arm and abrasions to the right arm. He was treated and released to police custody.

Brooks, Leonard R. Wright, 20, of 2416 Adams St. and David L. Wilson, 19, of 1916 Benton Ave., were charged with battery and criminal damage to property.

The three men appeared before Circuit Judge William Beatty at noon Saturday and bond was set on each at \$30,000, \$5,000 on each count of criminal damage and \$20,000 on the aggravated battery charge.

Brooks, Wright and Wilson were taken to Madison County Jail in lieu of bond. The fight allegedly started when four entertainers of the bar were being behind in the restaurant parking lot and three men drove by and

yelled obscenities at the group, according to police.

When one or two of the entertainers allegedly yelled obscenities at them, the trio returned to the parking lot, armed themselves with two auto jacks and a length of pipe, and smashed the windshield out of the entertainers' vehicle, police reports said. The doorway to the restaurant was also damaged.

The manager, Tom Hu, who was in his office at the time, called police.

Steals car, drives into parsonage

A car stolen from the home of Edward Miloslavsky, 214 Edison Ave., after 10:30 p.m. Saturday was driven into the parsonage of Bethel Evangelical Free Church at 2445 Stratford Lane, and then left the scene early Sunday.

The pastor and family were not at home as the auto drove through the front of the house and continued to the back wall before backing up and leaving the scene.

Police found the auto at 8 a.m. Sunday; abandoned behind homes in the 2400 block of Terminal Avenue.

Baker, Lebanon harriers prevail

Lebanon's Greyhounds lived up to the team name Saturday in winning the 14th annual Edwardsville invitational cross-country run but Granite City North and South improved fans at the 2.95-mile SIUE course.

Steele Mike Baker — as usual — was the individual champion, crossing the finish line in 15 minutes despite losing one of his shoes near the middle of the race.

Teammate Greg Stout of North High placed sixth at 15:40.

Schools in order after Lebanon's 59 points were Belleville East 75, O'Fallon 131, GCIS North 156, Belleville West 162, GCIS South and Alton tied for sixth with 163 points each, Hazelwood 173, Edwardsville 202, Stanton 226, Highland 248, Mascoutah 289 and Collinsville, 362.

Alton won the sophomore division of the contest, defeating Mascoutah, while Holman Junior High of Pattonville, Mo., captured the ninth grade run.

On Thursday, South defeated Collinsville in a home meet at Wilson Park, 16-47.

Jim Dumont took first place over the 2.83 mile course with a time of 15:23. The Warriors also took the next three places.

Dave Houston was second with a 15:27. Ken Meagher was third (15:48) and Dave Taylor finished fourth (15:46).

South also took the sixth, seventh and eighth places. Dave Blackwell was sixth (16:16). Scott Ahlers placed seventh (16:38) and Wally Fenton was eighth (16:42).

In the junior varsity meet, South took the first five positions. Jim Down was first with a time of 17:39 and Mike Gagliano was second with a 17:46. The next three finishers were Mike Gagliano, Mike Gagliano and Mike Gagliano.

Dubnick third (18:22), Ed Schumacher fourth (18:24) and Jeff Taylor, fifth (18:38).

The Collinsville junior varsity didn't find a complete team, but did compete. However, no official scores were kept.

Soccer Cougars sharp

The SIUE soccer team maintained its almost voodoohish her over a strong Rockhurst College eleven at Cougar Field Saturday afternoon before a large and enthusiastic crowd of spectators. Parents and friends of the players on both squads. Most of the players are from St. Louis high schools, but two from Granite City and one from Collinsville starting for Rockhurst are Illinois athletes.

The Cougars won 5-0 and ran their record to 3-0, plus an exhibition 1-0 victory over Indiana U.

Rockhurst of Kansas City suffered its first loss and is now 4-1. It was the Cougars' eighth consecutive victory over Rockhurst.

The Hawks are coached by Tony Tocco, a former All-American goalie for Bob Gurnea when he coached at St. Louis University.

Guelzer was more elated than ever over his Cougars' victory. It was his 200th victory in collegiate competition. At SIUE, his team captured five NCAA championships. His Cougars were the first NCAA division championship ever held in 1972.

Since then, the Cougars have competed in division I play and finished second to the University of San Francisco in 1975.

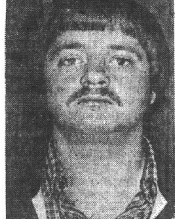

It was the usual hard-fought game between Rockhurst and SIUE. And, typically, it took the leadership and dashing class of senior two-time All-American Greg Makowski for the Granite Cougars to shake off their timidly as he scored SIUE's first goal at 29:25 on a pass from Dan Ebert.

In rapid fire action after the start of the second half, SIUE's youth laden team put on a demonstration of their power.

Chris Cacciatore, on a pass from Dave Hundert, made it 2-0 at 48:07. Seeing his first varsity action and looking as impressive as his backers claim, Bob Bozade, a freshman all-rounder, blasted in a pass from Jeff Cacciatore at 55:55.

At 67:57, Ebert teamed with soph star striker Dave Hundert to make it 4-0. Hundert then went in all alone to score unassisted at 70:24.

On Wednesday at 5 p.m., SIUE will play a touring varsity answer team from Blackpool, England.

RICHARD L. WOODS, JR., who has been appointed as a fireman in the Granite City Fire Department due to a vacancy created by the retirement of Capt. Alvin Brander.

After 29 years of service, Woods, hired Sept. 21, presently is attending Emergency Medical Technician (EMT) school at St. Elizabeth Hospital which will continue for 12 weeks.

Signs law to merge local level elections

Gov. James Thompson Saturday signed into law Senate Bill 1149 which will consolidate city, township and school elections after Dec. 1.

In signing the bill, Gov. Thompson issued a message to the legislature requesting it consider possible amendments to the bill during a special session beginning Oct. 24.

Opponents of the bill argue that many persons elected this year to four-year terms might be forced to run in two years.

Political effects on school boards and other non-partisan elected bodies also were cited by critics.

between the President of the United States and Harry S. Truman. Harry S. Truman did know the difference.

Charge filed in shooting

Billy Creek, 26, of 2128 Dewey Ave., remained in St. Elizabeth Hospital today where he is recuperating from four bullet wounds sustained in a disturbance at 2022 Missouri Avenue Wednesday.

Jerry Gibson, 32, of 2022 Missouri Ave., was charged with aggravated battery in an information document issued Thursday afternoon by the Madison County state's attorney's office. His bond was set after posting \$1,000 cash.

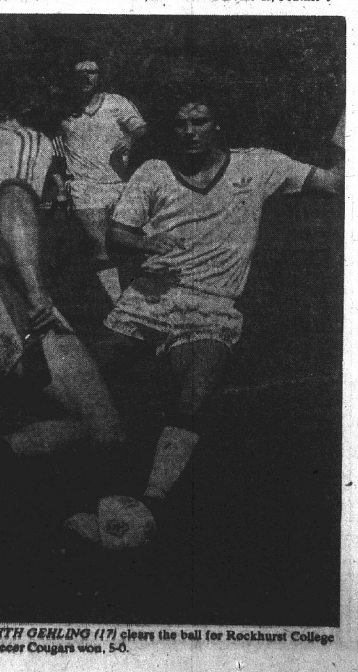

Bar auxiliary to hear about China

"Inside China" will be the program presented by Mrs. Dick Mudge of Edwardsville to the Madison County Bar Auxiliary at its meeting beginning at 4:30 p.m. Tuesday in Charlie's Restaurant.

Reservations should be made by noon Tuesday with Mrs. A. A. (Julie) Mattoon, president, at 877-8715.

This will be the first meeting of the auxiliary for the 1977-78 year.

New officers, in addition to President Mattoon, are Mrs. Nick (Mary) Byron, vice-president, and Mrs. Thomas (Cindy) Welch, secretary and treasurer.

GRANITE CITY'S KEITH ORHLING (17) clears the ball for Rockhurst College against SIUE Saturday. The soccer Cougars won 5-0.

Public Notice 34

NOTICE BY PUBLICATION

NOTICE IS GIVEN YOU, WILLIAM RADMAN:

That the City of Granite City, Illinois, on the 26th day of April, 1977, passed "A Resolution Providing For The Demolition or Repair of a Dangerous and Unsafe Building Commonly Known as 2008 12th Street, Granite City, Illinois, and Providing For Fixing of Lien For Costs of Said Services," a copy of which, containing the specific dangerous and unsafe conditions that exist in said building, may be obtained from the office of the Clerk of the City of Granite City, Illinois, at City Hall, Granite City, Illinois, regarding property legally described as: Lot 120 and West Half of Lot 121 in Block 4 in the Tri-City Park, a subdivision, according to the plat thereof recorded in Plat Book 27, in Madison County, Illinois, and commonly known as 2008 12th Street, Granite City, Illinois.

That as persons who may be otherwise interested in said property under an unrecorded agreement to purchase said premises, this action has been commenced against you by the City of Granite City, Illinois, for demolition or repair of the one-story frame residential building on said premises under the authority contained within Article VII, Section 2 of the Illinois Constitution of 1970 and Ordinance No. 3069 of the City of Granite City, Illinois, or an Ordinance, Ordinance No. 3069, is Dangerous and Unsafe or Uncompleted and Abandoned Building.

Unless you put said building in a safe condition or demolish it within 15 days of the date of this public notice, the City of Granite City, Illinois, will make application for a Writ of Injunction to the Circuit Court of Madison County, Illinois, 1) commanding you to demolish said structure, or, in the alternative, 2) to furnish immediately satisfactory proof that the structure can be safely repaired within a date certain, or, in the alternative, 3) to authorize and permit for the City of Granite City, Illinois, to abate the said nuisance by demolishing or wrecking the said structure at your expense and recover expenses and costs incurred from the sale of salvage, or, in the alternative, 4) to pay, or so far as they may or will go, and have the balance reduced to a Judgment of the Court to be a lien upon said real estate.

ROBERT STEVENS, City Clerk

DATED THE 9th day of September, 1977.

NOTICE OF SALE IN THE CIRCUIT COURT

THIRD JUDICIAL CIRCUIT

MADISON COUNTY, ILLINOIS

FEDERAL NATIONAL MORTGAGE ASSOCIATION, a corporation, etc.,

Plaintiff,

vs.

ILUMINADO PASTORIZA, et al.

Defendants(s.)

Under and by virtue of the decree of said Court, made and entered in the above action on the 20th day of September, 1977, an Associate Judge, as an officer of the Court, will on the 2nd day of November, 1977, at the hour of 1:30 p.m., at the East door, Main Street entrance of the Court House of Madison County, Illinois, sell at public auction, the highest and best bidder, for cash, the following described real estate, to-wit:

Lot 1 in Metro West, a subdivision in United States Survey 594 Claim 1865 according to the plat thereof recorded in Plat Book 40 on Page 41 in Madison County, Illinois.

Said sale to commence at 1:30 p.m. on the 2nd day of November, 1977.

Terms of Sale: CASH. At said sale I will give to the purchaser or purchasers a certificate in writing, describing the lands and tenements purchased and the sum paid therefor, and at the expiration of twelve (12) months from June 24, 1977, or six (6) months from date of sale herein specified, whichever is later, the holder thereof will be entitled to a deed for said premises, unless redeemed according to law.

Dated at Edwardsville, Illinois, this 20th day of September, 1977.

NOTICE FOR PUBLICATION

TO: PIETRO BIEZER (FATHER OF THOMAS BIEZER) 77-308 and to All Whom It May Concern

Take notice that on the 21st day of September, 1977, a petition was filed under the Juvenile Court Act by State's Attorney in the Circuit Court of Madison County entitled "In the interest of Thomas Biezer, minor", and that in Circuit Courtroom at Edwardsville on the 18th day of October at the hour of 1:30 p.m., or as soon thereafter as this cause may be heard, an adjudicatory hearing will be held upon the petition to terminate the guardianship of the court under that Act. The court has authority in this proceeding to take from you the custody and guardianship of the minor, and to appoint a guardian with power to consent to adoption of the minor.

Now, unless you appear at the hearing and show cause against the petition, the petition may be taken for confessed as against you and each of you, and an order, judgment or decree entered.

WILLARD V. PORTELL, Clerk

Dated September 22, 1977.

LIMITED 12 MONTH REPLACEMENT WARRANTY
13TH - 60TH MONTH PRORATA ADJUSTMENT WARRANTY

Should any Super K-60 battery fail (not merely discharge) within the designated replacement period, the battery may be returned by the original owner to K mart for replacement at no charge upon presentation of sales receipt. After the replacement period but before the expiration date of the warranty, K mart will replace a failed battery to the original owner charging only for the period of ownership, based on the current regular price (not sale price) at the time of return prorated over the total warranted months, by battery type. This warranty does not apply to batteries which have been damaged, misused, or commercially used by the purchaser.
